MERRIFIELD MAN KILLED IN ACCIDENT

Blistering Heat Wave Scorches East, Midwest

DEVASTATING TOLL OF DEATH AND SUFFERING

HEAT RECORDS OF A QUARTER CENTURY ARE BROKEN

COLUMBUS, OHIO, HAS HIGHEST READING, 112 DEGREES, RECORDED

(By United Press)

Promises of relief from a blistering heat wave brought faint cheer today to a nation from which was exacted a devastating toll of death and suffering over the week-end.

Heat records of a quarter century were broken yesterday as hot winds and a searing sun ran up new high temperatures from the Atlantic seaboard to the Rockies. Temperatures of 100 were recorded in several states and readings of above 90 were common.

Deaths from heat prostration and by drowning were expected to exceed 100. Livestock perished by the hundreds and crops throughout the mid-west were scorched by the sun and withered from the lack of rain.

Forecaster C. A. Donnell of the Chicago district predicted a general drop in temperatures, accompanied by rain in many sections, for today, however. He said indications are that temperatures would recede from 20 to 30 degrees.

Among the new record heat marks established yesterday was that at Columbus, O., where the mercury mounted to 112—the highest reported reading in the nation. Washington, D. C., had a new record of 105.

Chicago, typical of a dozen large cities throughout the nation, suffered Sunday for the second successive day under a temperature of 100 degrees. Nearly 1,000,000 persons were driven to Lake Michigan beaches, but they found scant relief on the hot sand or in the tepid water.

The thickly-populated New York City area recorded probably the greatest number of deaths resulting from yesterday's suffocating temperatures. Nine cases of heat prostration were fatal and ten persons were drowned. Last night thousands slept on the sands of Coney Island and other Metropolitan beaches to escape the almost unbearable heat of flats and tenements.

A furnace-like wind made it necessary to keep windows closed in homes throughout the midwest, city streets were deserted and even roads leading to the country were uncongested for the first Sunday this summer, as the most enthusiastic hesitated to brave the asphalt-oiling pavement.

Five men, almost driven insane by the heat, were removed from a raft on a lake near Lake Forest, Ill. They had set out for a cruise, lost their oars and had drifted unprotected from the blazing sun for several hours. One member of the party, James Marhoul, 34, Chicago, was overcome and lying half-conscious on the raft.

Hundreds of Kansas residents gathered in churches throughout the state to pray for rain which would save part of their crops.

Taking advantage of a bright moon, many farmers delayed their field work until night brought cooler working conditions for both men and horses. The heat and drought also wrought havoc to crops in Iowa, where it was estimated corn production had been reduced by 50,000,000 bushels.

Other temperatures yesterday were: Richmond, Va., 107; Phoenix, Ariz., 104; Baltimore, 102; Cincinnati, 102; Omaha, 102; Milwaukee, 102; Kansas City, 100; St. Louis, 100; Indianapolis, 100; Cleveland, 98; Philadelphia, 98; Pittsburgh, 98; Detroit, 96.

RAINS BENEFIT MINNESOTA CROPS

St. Paul, July 21.—Heavy rains in central Minnesota held temperatures to moderate figures over the week-end.

Though no rain fell at the Twin Cities heavy precipitation was reported generally over the state.

Four deaths were attributed to the heat and storms. Three men were drowned and a fourth died of injuries received in a fall.

Carl Hansen, 43, Exeland, Wis., was drowned while fishing on the Minnesota river near Shakopee. Edward Keller, 22, Little Falls, died of injuries received when he fell 40 feet from a pole while repairing a break in a power line. Al Picotte, 53, Bayfield, Wis., drowned in Siskiwit lake near Bayfield. Eugene Diyan, 5, drowned when he fell into an abandoned well.

Duluth had 2.22 inches of rain, Moorhead .96, Williston, N. D., .10, Bismarck, N. D., approximately .50, and Brainerd .90.

Rain and wind caused slight damage at Milaca, St. Cloud and Long Prairie. Some grain was hurt by the rain but the general effect was beneficial, crop experts said.

Little Falls, Minn., July 21.—Funeral services will be held here for William Keeler, 23, lineman who fell from a power pole near St. Cloud Sunday.

FARMER, WIFE AND SON ARE MUTILATED ON BURNING BEDS

Geneva, Ill., July 21.—(U.P.)—Charles S. Anderson, wealthy farmer, his wife and 18-year-old son were mutilated early today with an axe and hatchet and left on burning beds.

Husband and wife were found dead by neighbors attracted by dense smoke pouring from the Anderson home, three miles west of here. The son died in a few minutes.

L. L. Urch, Kane county sheriff, said so far as was known the family had no enemies, and he started his investigation of the triple murder lacking a probable motive for the crime.

EGYPTIAN POLICE FIRE ON A MOB, SEVERAL KILLED

TROOPS NOW OCCUPY STRATEGIC PORTIONS OF THE CITY OF CAIRO

NATIONALIST DEPUTIES WILL TRY TO RECONVENE PARLIAMENT IN SPIKE OF KING

Cairo, July 21.—(U.P.)—Several persons were killed today when Egyptian police fired on a mob here.

Egyptian troops occupied strategic positions as nationalist deputies headed by former Premier Nahas Pasha indicated they would attempt to reconvene parliament against the wishes of King Fuad I.

The rioting still continued at 1:30 P. M. The number of casualties from the firing of police had not been determined.

The troops marched into the city yesterday at the first sign that the nationalist, or Wafdist leaders would seek to resume the seats from which they were forced on June 22 when the king prorogued the parliament.

The Wafdists also served notice that Premier Sidky Pasha, who replaced Nahas, must present his government for a vote when parliament reassembled, or a non-cooperative campaign would be instituted against the government.

Long lines of excited Egyptians thronged the streets down which the troops marched to their posts at the parliament house, the gas and water works, railway stations, and the offices of anti-Wafd newspapers.

Baby Crushed by Car of Father at Little Falls

Little Falls, Minn., July 21.—(U.P.)—Hal Lovingsfoss, 14 months old son of Mr. and Mrs. A. I. Lovingsfoss near here, died yesterday at the Little Falls hospital from injuries received when he wandered into the path of his father's automobile. The father was backing the car out of his garage and his vision was obstructed. He heard his son's cries and rushed him to the hospital for treatment.

Filling of New Minnesota Federal Judgeship Delayed

Washington, July 21.—(U.P.)—President Hoover informed Senator Schall, republican, Minnesota, at the White House today he does not intend to fill the new Minnesota federal judgeship until the December session of congress. No reason for the delay was given.

Schall called to endorse the candidacy of Ernest Michael of Minneapolis.

Droughts Affect Dairying in Three Southern States

Chicago, July 21.—(U.P.)—The dairying industry in the states of Arkansas, Louisiana and Texas is suffering a marked decrease in production due to the drought affecting pasture lands. C. F. Bawley, of Dallas Tex., new president of the Southwest Dairy Products association, said today.

day morning and died at 11:30 P. M. last night. The date of the services has not yet been decided.

Colorado Springs, Colo., July 21.—Harry Bonds will have a lot of explaining to do when he arrives home in Chicago.

Bonds decided to cool off yesterday while atop Pike's Peak—the temperature was 80—and joined in a snowball battle.

A cold pellet struck him on the right eye. When he recovered consciousness he wasn't worried about the injury.

"But who is going to believe me?" he asked.

6 Persons Killed When Airplane Hits Hill at Gravesend, England, Encounters Channel Mist

DEAD INCLUDE TWO PILOTS AND 4 PASSENGERS

WAS JUNKERS TYPE COMMERCIAL TAXI-PLANE OPERATING IN AREA

SCENE OF DISASTER MEOPHAM GREEN, BETWEEN GRAVESSEND AND CHATHAM

London, July 21.—(U.P.)—Six persons were reported killed today when an airplane crashed near Gravesend.

The scene of the disaster was Meopham Green, between Gravesend and Chatham on the Thames. The dead included the two pilots and four passengers of a Junkers type commercial taxi-plane operating between Croydon and Le Touquet, France.

All the occupants of the plane were killed. The plane left Croydon en route to Berok, near Le Touquet. Flying low in a mist towards the channel, it struck the top of a hill and was demolished.

It was reported that two of the occupants of the plane were women but the spokesman for the Wallcott air line, owner of the plane, refused all information. He indicated, however, there were no Americans aboard.

A portion of the plane fell through a house.

The dead included the pilot, Colonel G. L. T. Henderson, famous war time ace.

London, July 21.—A passenger plane enroute from Croydon airdrome to Le Touquet, a French resort, crashed into a Kentish hillside about 20 miles from London today, killing all six of the occupants.

The plane carried a distinguished and titled passenger list. The dead: Viscountess Ednam, daughter of the Duke of Sutherland and wife of the wealthy Viscount Ednam.

The Marquess of Dufferin and Ava, distinguished leader in northern Irish affairs and war veteran.

Sir Edward Ward, also a war veteran.

Mrs. Loeffer, wife of Capt. H. Loeffer.

Lieut. Col. G. L. T. Henderson, the pilot, a noted war ace.

—Shearing, assistant pilot.

Viscountess Ednam was a close friend of the Prince of Wales and daughter-in-law of the Earl of Dudley.

Sir Edward Ward formerly was permanent undersecretary of war.

THREE KILLED IN ELECTION RIOTING IN CHIHUAHUA

El Paso, Tex., July 21.—(U.P.)—Military guards patrolled the streets of Juarez, Mex., today after three persons were killed in rioting attending the Chihuahua state gubernatorial election yesterday.

It was estimated that more than 50 persons were injured. Fifteen men were in hospitals today and numerous others had been discharged after receiving medical attention.

JACKSON AND O'BRIEN START TO BREAK RECORD

FORMER HOLDERS OF REFUELING ENDURANCE RECORD TAKEN BY HUNTERS

PAIR ARE HOPEFUL OF STAYING IN THE AIR 30 DAYS OR 720 HOURS

St. Louis, Mo., July 21.—(U.P.)—Dale Jackson and Forest O'Brien, former holders of the refueling endurance record, took off from Lambert-St. Louis field in a Curtiss-Robin monoplane at 7:12 A. M. CST, today hopeful of staying in the air 30 days (720 hours) and thus decisively beating the Hunter brothers' mark of 553 hours made in Chicago recently.

The plane the two went aloft in, "The Greater St. Louis," is similar to the "St. Louis Robin" in which they spent 420 consecutive hours in the air just a year ago, and was presented to them as a reward for that feat.

Falls from Grandstand, Fractures His Ribs

St. Cloud, Minn., July 21.—(U.P.)—John Moeller, 22, St. Cloud, today nursed two fractured ribs received when he fell from a grandstand during the Little Falls-St. Cloud ball game here Sunday.

DENIES PRINCE WILL VISIT UNITED STATES

London, July 21.—(U.P.)—Sir Godfrey Thomas, secretary to the Prince of Wales, denied to the United Press last night a report published in a London newspaper that the prince would visit the United States and Canada on a holiday trip this year.

GOV. YOUNG IS ANXIOUS TO SEE JOHN MAC DONALD

LATTER IS RECENTLY WITNESS OF MOONEY-BILLINGS CASE

ARRIVES IN SAN FRANCISCO LAST NIGHT TO REVERSE TESTIMONY

San Francisco, July 21.—(U.P.)—Governor C. C. Young declared today he was ready and anxious to see John MacDonald, recanting witness of the Tom Mooney-Warren Billings case.

MacDonald arrived last night to reverse the testimony that sent two men to prison. Mooney and Billings, convicted largely on the statements of MacDonald, are serving life terms in prison for the 1916 preparedness day bombing here that killed 10 men and wounded 40.

MacDonald on the advice of his attorneys, refused to talk about his plans.

The executive planned today to make a quick trip to Stockton, but said he could see MacDonald immediately after his return, probably Tuesday.

MacDonald, brooding and ill, passed up Market Street on the way to his hotel from the station. It was on this same street 14 years ago tomorrow that the tragic bombing occurred and it was just a few blocks away that the tired looking little man gave the testimony that sent Mooney and Billings to prison as the perpetrators.

"Never thought I'd be coming back here again," he spoke, unsteadily, and then lapsed into his silence.

Concern was expressed in San Francisco by the Mooney and Billings faction over the illness that so apparently saps the vitality of MacDonald. He gave the impression that his body was wracked with pain and that to move was an effort.

Challenge Election of Two St. Cloud School Board Members

St. Cloud, Minn., July 21.—(U.P.)—Petitions asking that the election of two new directors of the school board here be challenged were circulated today. Hubert J. Hansen and M. J. Sivinski, the new directors, were apparently selected over the two incumbents, Kendall Clark and J. A. Allen, in the election on July 15. That vote will be protested on the grounds of alleged illegal election practices in certain voting precincts.

The new directors are scheduled to take office on August 7.

BROKEN RAIL BRINGS DEATH TO FIVE IN CIRCUS

Moncton, N. B., July 21.—(U.P.)—A broken rail was believed today to have caused the deaths of five persons and injuries to 18 others when nine flat cars of the A. G. Barnes circus train were derailed near here yesterday.

Four of the dead were circus workers and the other a hobo who was thought to have "hooked" a ride from Newcastle to Charlottetown, Prince Edward Island, where the show was scheduled for appearance tonight.

The cars containing the animals of the circus were not affected. The most seriously injured were brought here on a relief train for treatment.

CHAS. LOCKWOOD SAYS GOODBYE TO COMPANIONS

AGED CIVIL WAR VETERAN KEEPS A PROMISE MADE 45 YEARS AGO

SIPS TOAST OF VINEGAR, ONCE CHOICE BURGUNDY, TO MEMORY OF DEAD FALS

By HILLIER KRIEGBAUM (United Press Staff Correspondent)

Stillwater, Minn., July 21.—The faint scent of garden flowers diffused from bouquets at the backs of 33 crepe-draped chairs today as Charles Lockwood said good-bye to his companions of battle.

Lockwood kept a promise made 45 years ago. He sipped a toast of vinegar—once choice Burgundy—to the memory of his dead comrades.

A draped chair and a spray of flowers told of the 33 who had died.

Alone at the table with the memories of his comrades in Company B, First Minnesota Volunteer Infantry, Lockwood recited:

"The camp fire smoulders—ashes fall;
"The clouds are black against the sky;
"No tap of drums, no bugle call;
"My comrades, all, good-bye."

While the lone survivor made his toast to the dead, talking picture cameras recorded for all time the termination of the only club of its kind in the world. Spectators crowded the hall just as they had that day in 1861 when Stillwater lads had marched gallantly to battle after a farewell dance.

Shortly after 11 A. M. Lockwood recited the poem to his comrades before a talking picture camera. His voice was steady and even as he called the roll of 34 club members. He paused after each name except his own when he answered present.

The official banquet with the final closing of the Last Man's Club was held at the Lowell Inn this afternoon. It was on the site of Lowell Inn, then the Sawyer House, that the young men had danced through to the early hours of Sunday morning, April 21, 1861. They went to Fort Snelling in response to President Lincoln's call to save the Union. There they formed Company B, First Minnesota Volunteer Infantry.

The company went from battle to battle. Bull Run took its toll of lives. Gettysburg saw many more die. The war ended with 89 living of the men who had marched away that Sunday morning.

Then came reunions and celebrations of victories won. On September 17, 1885, 34 veterans were still alive. That night they held a celebration. The party was breaking up. One lone bottle of the wine that Louis Hospes had presented for the reunion remained on the table.

"Let's make it a last man's club," someone suggested. "The survivor will drink a toast to his comrades."

The idea was agreed to. Lockwood, who was not at the reunion, joined the group later in his pledge of fidelity.

The years passed. Only three comrades were living in 1927. They met in the auditorium theatre here. The seal on the bottle was broken. A toast from the trio to their comrades was drunk. They found the wine had turned to vinegar. The bottle was resealed and returned to its place in the First National Bank vault.

Today Lockwood alone held the last meeting of the club. The records will be closed. Records and bottle will be turned over to the Stillwater library, where already the tattered company flag rests.

FOREIGN FLASHES

Dublin, July 21.—(U.P.)—The executive committee of the National Union of Railway men decided today to call a general railway strike in the Irish Free State, effective at midnight tomorrow.

JOHN GORDON DIES IN HOSPITAL HERE, NO INQUEST HELD

WAS STRUCK WHILE CROSSING ROAD FOUR MILES NORTH OF BRAINERD

C. E. HOTTIS OF BRAINERD DRIVING CAR THAT STRUCK HIM; ACCIDENT UNAVOIDABLE

John Gordon, a bachelor living six miles north of Brainerd, died in St. Joseph's hospital here at 3 o'clock yesterday afternoon from a fractured skull suffered at noon yesterday when he was struck by a car driven by C. E. Hottis, manager of the Scott Stores, Inc., here.

Gordon was coming to the home of his niece, Mrs. Elsie Lovestad, four miles north of Brainerd for Sunday dinner. He was picked up by the three boys, Elgin Murray, Brainerd Route 1 who was driving the car, Orville Maust, Brainerd Route 1, and George Frisch of Brainerd Route 3.

The car stopped a little beyond the entrance to the Lovestad house and Mr. Gordon walked back of the car and started to cross the road and apparently failed to see the oncoming Hottis car.

Hottis was driving north at the rate of about 30 miles an hour and seeing the man, tried to swerve to the ditch to avoid striking him. The left rear fender of the Hottis car struck Gordon and knocked him down.

He was unconscious when Hottis and the boys picked him up. They immediately put him in the Murray car and rushed him to St. Joseph's hospital here. He died at 3 o'clock without regaining consciousness.

Coroner D. E. Whitney said that no inquest was necessary. The accident was unavoidable and Hottis was absolved from all blame.

Mr. Gordon has lived in this vicinity for the past thirty years. He is survived by his niece, Mrs. Elsie Lovestad, upon whom he was about to call when the fatal accident occurred.

Funeral services will be held for Mr. Gordon tomorrow afternoon at 2 o'clock at the Presbyterian church, Rev. A. G. Patterson, pastor, officiating.

SENATE REJECTS SIX RESERVATIONS TO NAVAL TREATY

Washington, July 21.—(U.P.)—The senate today rejected in quick succession six reservations to the London naval treaty which the pact's supporters felt had been submitted largely to embarrass ratification.

One reservation by Sen. Walsh (democrat, Massachusetts) and five by Sen. McKellar (democrat, Tennessee) were disposed of in a quick flurry of voting in which the treaty supporters overwhelmed their opponents.

The votes came after adoption by acclamation of a reservation by Sen. Norris (republican, Nebraska) excluding secret documents and understandings from effect upon the treaty.

WIFE OF MARCONI GIVES BIRTH TO GIRL

Civita Vecchia, Italy, July 21.—(U.P.)—The Marchioness Maria Christina Marconi, who the inventor of wireless telegraphy married in 1927, gave birth to her first child, a girl, at Odescarchi palace yesterday.

King Victor Emmanuel III, Queen Helena, Pope Pius XI, and Premier Mussolini telegraphed congratulations today.

Queen Helena will act as godmother to the little girl, at the christening ceremonies this week, it was understood. The child will be named Maria Electra Elena Anna Marconi.

Marconi, who has a son and two daughters by his first marriage in 1905, was gleeful when informed that his wife and daughter were well.

Chain Stores in Kansas City Robbed of \$12,000

Kansas City, Mo., July 21.—(U.P.)—Bandits employing identical strategy and possibly colleagues held up money messengers of the Piggly Wiggly and Safeway chain stores here today and obtained between \$12,000 and \$15,000 in two boulevard holdups. The money comprised week end receipts collected by the supervisors.

'NORWALK APE' IS SEEN AGAIN

Sandusky, O., July 21.—(U.P.)—The "Norwalk Ape," elusive terror of the northern Ohio countryside, was "seen" again yesterday. Mrs. William L. Fiesinger, wife of a county judge, reported she saw the animal in a park near her home. A search was fruitless. Mrs. Fiesinger, whose story met with general credence, said she was sure the animal was a large ape.

Mrs. Herbert Hoover, wife of the President, saying farewell to the teacher and school children at the Rapidan River school which was established recently by Mr. and Mrs. Hoover. The First Lady was much interested in the progress made by the pupils. (International Newsphoto)

Blistering Heat Wave Scorches East, Midwest

DEVASTATING TOLL OF DEATH AND SUFFERING

HEAT RECORDS OF A QUARTER CENTURY ARE BROKEN

COLUMBUS, OHIO, HAS HIGHEST READING, 112 DEGREES, RECORDED

(By United Press)

Promises of relief from a blistering heat wave brought faint cheer today to a nation from which was exacted a devastating toll of death and suffering over the week-end.

Heat records of a quarter century were broken yesterday as hot winds and a searing sun ran up new high temperatures from the Atlantic seaboard to the Rockies. Temperatures of 100 were recorded in several states and readings of above 90 were common.

Deaths from heat prostration and by drowning were expected to exceed 100. Livestock perished by the hundreds and crops throughout the mid-west were scorched by the sun and withered from the lack of rain.

Forecaster C. A. Donnell of the Chicago district predicted a general drop in temperatures, accompanied by rain in many sections, for today, however. He said indications are that temperatures would recede from 20 to 30 degrees.

Among the new record heat marks established yesterday was that at Columbus, O., where the mercury mounted to 112—the highest reported reading in the nation. Washington, D. C., had a new record of 105.

Chicago, typical of a dozen large cities throughout the nation, suffered Sunday for the second successive day under a temperature of 100 degrees. Nearly 1,000,000 persons were driven to Lake Michigan beaches, but they found scant relief on the hot sand or in the tepid water.

The thickly-populated New York City area recorded probably the greatest number of deaths resulting from yesterday's suffocating temperatures. Nine cases of heat prostration were fatal and ten persons were drowned. Last night thousands slept on the sands of Coney Island and other metropolitan beaches to escape the almost unbearable heat of flats and tenements.

A furnace-like wind made it necessary to keep windows closed in homes throughout the midwest, city streets were deserted and even roads leading to the country were uncongested for the first Sunday this summer, as the most enthusiastic hesitated to brave the asphalt-oozing pavement.

Five men, almost driven insane by the heat, were removed from a raft on a lake near Lake Forest, Ill. They had set out for a cruise, lost their oars and had drifted unprotected from the blazing sun for several hours. One member of the party, James Marhoul, 34, Chicago, was overcome and lying half conscious on the raft.

Hundreds of Kansas residents gathered in churches throughout the state to pray for rain which would save part of their crops.

Taking advantage of a bright moon, many farmers delayed their field work until night brought cooler working conditions for both men and horses. The heat and drought also wrought havoc to crops in Iowa, where it was estimated corn production had been reduced by 50,000,000 bushels.

Other temperatures yesterday were: Richmond, Va., 107; Phoenix, Ariz., 104; Baltimore, 102; Cincinnati, 102; Omaha, 102; Milwaukee, 102; Kansas City, 100; St. Louis, 100; Indianapolis, 100; Cleveland, 98; Philadelphia, 98; Pittsburgh, 98; Detroit, 96.

RAINS BENEFIT MINNESOTA CROPS

St. Paul, July 21.—(U.P.)—Heavy rains in central Minnesota held temperatures to moderate figures over the week-end.

Though no rain fell at the Twin Cities heavy precipitation was reported generally over the state.

Four deaths were attributed to the heat and storms. Three men were drowned and a fourth died of injuries received in a fall.

Carl Hansen, 43, Exeland, Wis., was drowned while fishing on the Minnesota river near Shakopee. St. Cloud, Minn., July 21.—(U.P.)—John Moeller, 22, St. Cloud, today nursed two fractured ribs received when he fell from a grandstand during the Little Falls-St. Cloud ball game here Sunday.

DENIES PRINCE WILL VISIT UNITED STATES

London, July 21.—(U.P.)—Sir Godfrey Thomas, secretary to the Prince of Wales, denied to the United Press last night a report published in a London newspaper that the prince would visit the United States and Canada on a holiday trip this year.

GOV. YOUNG IS ANXIOUS TO SEE JOHN MAC DONALD

LATTER IS RECOUNTING WITNESS OF MOONEY-BILLINGS CASE

ARRIVES IN SAN FRANCISCO LAST NIGHT TO REVERSE TESTIMONY

San Francisco, July 21.—(U.P.)—Governor C. C. Young declared today he was ready and anxious to see John MacDonald, recanting witness of the Tom Mooney-Warren Billings case.

MacDonald arrived last night to reverse the testimony that sent two men to prison. Mooney and Billings, convicted largely on the statements of MacDonald, are serving life terms in prison for the 1916 preparedness day bombing here that killed 10 men and wounded 40.

MacDonald on the advice of his attorneys, refused to talk about his plans.

The executive planned today to make a quick trip to Stockton, but said he could see MacDonald immediately after his return, probably Tuesday.

MacDonald, brooding and ill, passed up Market Street on the way to his hotel from the station. It was on this same street 14 years ago tomorrow that the tragic bombing occurred and it was just a few blocks away that the tired looking little man gave the testimony that sent Mooney and Billings to prison as the perpetrators.

"Never thought I'd be coming back here again," he spoke, unsteadily, and then lapsed into his silence.

Concern was expressed in San Francisco by the Mooney and Billings faction over the illness that so apparently saps the vitality of MacDonald. He gave the impression that his body was wracked with pain and that to move was an effort.

Challenge Election of Two St. Cloud School Board Members

St. Cloud, Minn., July 21.—(U.P.)—Petitions asking that the election of two new directors of the school board here be challenged were circulated today.

Hubert J. Hansen and M. J. Siviniski, the new directors, were apparently selected over the two incumbents, Kendall Clark and J. A. Allen, in the election on July 15. That vote will be protested on the grounds of alleged illegal election practices in certain voting precincts.

The new directors are scheduled to take office on August 7.

BROKEN RAIL BRINGS DEATH TO FIVE IN CIRCUS

Moncton, N. B., July 21.—(U.P.)—A broken rail was believed today to have caused the deaths of five persons and injuries to 18 others when nine flat cars of the A. I. G. Barnes circus train were derailed near here yesterday.

Four of the dead were circus workers and the other a hobo who was thought to have "hooked" a ride from Newcastle to Charlottetown, Prince Edward Island, where the show was scheduled for appearance tonight.

The cars containing the animals of the circus were not affected. The most seriously injured were brought here on a relief train for treatment.

CHAS. LOCKWOOD SAYS GOODBYE TO COMPANIONS

AGED CIVIL WAR VETERAN KEEPS A PROMISE MADE 45 YEARS AGO

SIPS TOAST OF VINEGAR, ONCE CHOICE BURGUNDY, TO MEMORY OF DEAD PAIS

By HILLIER KRIEGBAUM (United Press Staff Correspondent)

Stillwater, Minn., July 21.—The faint scent of garden flowers diffused from bouquets at the backs of 33 crepe-draped chairs today as Charles Lockwood said good-bye to his companions of battle.

Lockwood kept a promise made 45 years ago. He sipped a toast of vinegar—once choice Burgundy—to the memory of his dead comrades.

A draped chair and a spray of flowers told of the 33 who had died.

Alone at the table with the memories of his comrades in Company B, First Minnesota Volunteer Infantry, Lockwood recited:

"The camp fire smoulders—ashes fall;
"The clouds are black against the sky;
"No tap of drums, no bugle call;
"My comrades, all, good-bye."

While the lone survivor made his toast to the dead, talking picture cameras recorded for all time the termination of the only club of its kind in the world. Spectators crowded the hall just as they had that day in 1861 when Stillwater lads had marched gallily to battle after a farewell dance.

Shortly after 11 A. M. Lockwood recited the poem to his comrades before a talking picture camera. His voice was steady and even as he called the roll of 34 club members. He paused after each name except his own when he answered present.

The official banquet with the final closing of the Last Man's Club was held at the Lowell Inn this afternoon. It was on the site of Lowell Inn, then the Sawyer House, that the young men had danced through to the early hours of Sunday morning, April 21, 1861. They went to Fort Snelling in response to President Lincoln's call to save the Union. There they formed Company B, First Minnesota Volunteer Infantry.

The company went from battle to battle. Bull Run took its toll of lives. Gettysburg saw many more die. The war ended with 89 living of the men who had marched away that Sunday morning.

Then came reunions and celebrations of victories won. On September 17, 1885, 34 veterans were still alive. That night they held a celebration. The party was breaking up. One lone bottle of the wine that Louis Hospes had presented for the reunion remained on the table.

"Let's make it a last man's club," someone suggested. "The survivor will drink a toast to his comrades."

The idea was agreed to. Lockwood, who was not at the reunion, joined the group later in his pledge of fidelity.

The years passed. Only three comrades were living in 1927. They met in the auditorium theatre here. The seal on the bottle was broken. A toast from the trio to their comrades was drunk. They found the wine had turned to vinegar. The bottle was resealed and returned to its place in the First National Bank vault.

Today Lockwood alone held the last meeting of the club. The records will be closed. Records and bottle will be turned over to the Stillwater library, where already the tattered company flag rests.

FOREIGN FLASHES

Dublin, July 21.—(U.P.)—The executive committee of the National Union of Railway men decided today to call a general railway strike in the Irish Free State, effective at midnight tomorrow.

JOHN GORDON DIES IN HOSPITAL HERE, NO INQUEST HELD

WAS STRUCK WHILE CROSSING ROAD FOUR MILES NORTH OF BRAINERD

C. E. HOTTIS OF BRAINERD DRIVING CAR THAT STRUCK HIM; ACCIDENT UNAVOIDABLE

John Gordon, a bachelor living six miles north of Brainerd, died in St. Joseph's hospital here at 3 o'clock yesterday afternoon from a fractured skull suffered at noon yesterday when he was struck by a car driven by C. E. Hottis, manager of the Scott Stores, Inc., here.

Gordon was coming to the home of his niece, Mrs. Elsie Lovestad, four miles north of Brainerd for Sunday dinner. He was picked up by the three boys, Elgin Murray, Brainerd Route 1 who was driving the car, Orville Maust, Brainerd Route 1, and George Frisch of Brainerd Route 3.

The car stopped a little beyond the entrance to the Lovestad house and Mr. Gordon walked back of the car and started to cross the road and apparently failed to see the oncoming Hottis car.

Hottis was driving north at the rate of about 30 miles an hour and seeing the man, tried to swerve to the ditch to avoid striking him. The left rear fender of the Hottis car struck Gordon and knocked him down.

He was unconscious when Hottis and the boys picked him up. They immediately put him in the Murray car and rushed him to St. Joseph's hospital here. He died at 3 o'clock without regaining consciousness.

Coroner D. E. Whitney said that no inquest was necessary. The accident was unavoidable and Hottis was absolved from all blame.

Mr. Gordon has lived in this vicinity for the past thirty years. He is survived by his niece, Mrs. Elsie Lovestad, upon whom he was about to call when the fatal accident occurred.

Funeral services will be held for Mr. Gordon tomorrow afternoon at 2 o'clock at the Presbyterian church, Rev. A. G. Patterson, pastor, officiating.

SENATE REJECTS SIX RESERVATIONS TO NAVAL TREATY

Washington, July 21.—(U.P.)—The senate today rejected in quick succession six reservations to the London naval treaty which the pact's supporters felt had been submitted largely to embarrass ratification.

One reservation by Sen. Walsh (democrat, Massachusetts) and five by Sen. McKellar (democrat, Tennessee) were disposed of in a quick flurry of voting in which the treaty supporters overwhelmed their opponents.

The votes came after adoption by acclamation of a reservation by Sen. Norris (republican, Nebraska) excluding secret documents and understandings from effect upon the treaty.

WIFE OF MARCONI GIVES BIRTH TO GIRL

Civita Vecchia, Italy, July 21.—(U.P.)—The Marchioness Maria Christina Marconi, who the inventor of wireless telegraphy married in 1927, gave birth to her first child, a girl, at Odescarchi palace yesterday.

King Victor Emanuel III, Queen Helena, Pope Pius XI, and Premier Mussolini telegraphed congratulations today.

Queen Helena will act as godmother to the little girl, at the christening ceremonies this week. It was understood. The child will be named Maria Electra Elena Anna Marconi.

Marconi, who has a son and two daughters by his first marriage in 1905, was gleeful when informed that his wife and daughter were well.

Chain Stores in Kansas City Robbed of \$12,000

Kansas City, Mo., July 21.—(U.P.)—Bandits employing identical strategy and possibly colleagues held up money messengers of the Piggly Wiggly and Safeway chain stores here today and obtained between \$12,000 and \$15,000 in two boulevard holdups. The money comprised week end receipts collected by the supervisors.

'NORWALK APE' IS SEEN AGAIN

Sandusky, O., July 21.—(U.P.)—The "Norwalk Ape," elusive terror of the northern Ohio countryside, was "seen" again yesterday. Mrs. William L. Fiesinger, wife of a county judge, reported she saw the animal in a park near her home. A search was fruitless. Mrs. Fiesinger, whose story met with general credence, said she was sure the animal was a large ape.

First Lady Leaves Rapidan School

Mrs. Herbert Hoover, wife of the President, saying farewell to the teacher and school children at the Rapidan River school which was established recently by Mr. and Mrs. Hoover. The First Lady was much interested in the progress made by the pupils.

MRS. GRETA RAHKO
DIES AT HER HOME

Funeral Services to be Held at the Finnish Lutheran Church, on Wednesday Afternoon

Mrs. Greta Rahko passed away at 9:30 o'clock Sunday morning at her home at 1212 Quince Street. She suffered from successive strokes of paralysis, being taken to bed, almost helpless, four weeks ago.

Mrs. Rahko was born in Finland in 1844 and has lived in this country for twenty-five years, twelve of these years in Brainerd. She was an active member of the Finnish Lutheran Church of Brainerd while living here.

She leaves to mourn her loss four daughters, Mrs. Suoma Laakko and Mrs. Saima Leinonen, both of Ishpeming, Mich., Mrs. Elias Kukkonen of New York Mills and Mrs. Jacob Ketteri of Brainerd. She also leaves twenty grand-children and sixteen great-grandchildren, also a host of friends.

Funeral services will be held from the Finnish Lutheran Synod Church, corner of Quince and 14th Streets, at 2 o'clock Wednesday afternoon. Interment will be made in Evergreen cemetery.

HOLD McQUILLIN RITES
HERE THIS AFTERNOON

Funeral services were held this afternoon at 2:30 o'clock for Estie E. McQuillin at the Masonic Hall. He died at his home here last Thursday.

At the time of his death he was 59 years of age. He was born in Hamilton, Fillmore county, on Nov. 18, 1870. Mr. McQuillin was married to Hattie Way in 1892 at Aitkin and to this union was born two children, E. W. McQuillin of Brainerd and Mrs. Roy Sherlund of Brainerd.

Mr. McQuillin and family moved to Brainerd in 1907. He was employed by the city of Brainerd as chief engineer. For the last 23 years Mr. McQuillin was always faithful to his work and his family. Mr. McQuillin leaves to mourn his passing his father, Harvey McQuillin, Minneapolis, his wife, a son, E. W. McQuillin and a daughter, Mrs. Roy Sherlund, all of Brainerd; also three sisters, Mrs. Andrew Bridgell of Duluth, Mrs. Lizzie Dawson of Duluth, and Mrs. Martha Cooper of Denver, Colo.

He was a member of the Masonic lodge, the Odd Fellows, Knights of Pythias and the Brotherhood of American Yeoman, the Eastern Star and the Pythian Sisters.

RETURN FROM MOOSE LAKE

Brainerd Delegation Attend Arrowhead Epworth League Institute

Rev. F. A. Kufus and the Misses Ellen Larson, Helen Peters and Marjorie Forsberg returned last evening from Moose Lake where they attended the Arrowhead Epworth League Institute of the Duluth district during the past week.

Rev. Kufus was dean of men and also instructor in the social forum. He was also re-elected as a member of the Epworth League commission. The institute was said this year to be one of the best institutes ever held. Between 80 and 90 delegates were registered. Among Brainerd visitors at the institute were Mrs. G. E. Senn and her two nieces the Misses Violet and Irma Green.

Brainerd Boy Wed
In Minneapolis

Miss Evangeline Peyton of Willmar and Harvey Day Lively of this city were married Wednesday evening in Minneapolis at the Trinity Lutheran parsonage, Rev. Huchthausen performing the ceremony.

The attendants were Mr. and Mrs. Paul Buresh of Minneapolis.

The bride wore a gown of green chiffon, with tan slippers. She is the daughter of Mrs. S. Peyton of Willmar. The groom is the son of Mr. and Mrs. G. A. Lively of the city.

After their wedding trip, part of which was spent with her mother at Willmar, Mr. and Mrs. Lively will make their home at the G. A. Lively farm near Brainerd.

Entertain at Breezy Point Dinner

Guests of Mr. and Mrs. Sam Nesheim, 619 Quince street, over the week end were Mr. and Mrs. Earl Elide and family and Mr. and Mrs. Field of St. Paul. Mr. Elide is manager of the St. Paul district of the Prudential Life Insurance company, and Mr. Field is the assistant manager.

Mr. and Mrs. Nesheim entertained their guests at dinner Sunday at Breezy Point.

Stars and Planets

The stars are fixed in space, while the planets travel. The difference is best seen by looking on the planets as other earths, and the stars as other suns.

RAIN CUTS CROWD
AT JERICHO OUTING

Only About 500 Brave Morning Rain to Attend All-Day Picnic Held at Lum Park Yesterday

GRAND OFFICERS SPEAK

Picnic Dinner and Luncheon, Sports Program, and Life Saving Demonstration Entertain Visitors

Only about 500 people attended the annual Jericho outing held yesterday at Lum Park. More than twice this number were expected as Odd Fellows from Brainerd and 18 other surrounding northern Minnesota cities and towns were reported to attend. The rainy weather in the morning affected the attendance greatly.

An old-fashioned picnic dinner was held at noon and those that stayed until evening had a picnic luncheon at night.

The meeting was featured by a number of addresses by the grand officers of various branches of the lodge.

E. G. Haymaker, president of the Jericho Outing Association, acted as chairman and introduced the speakers. Among those who spoke were: J. A. Lombard of Minneapolis, grand master; O. M. Anderson of Minneapolis, deputy grand master; Ed Thompson of Hewitt; R. L. Wohl of Ironton, secretary of the association; Mr. Peterson of Staples, treasurer of the association; Leonard Soderberg, grand patriarch; Grace Staples of St. Cloud, president of the Rebekah's assembly; Cora Bartlett, vice president of Hibernia. There were several other speakers.

A program of sports was held in the afternoon, most of the contests conducted being for children. One feature of the afternoon was a life saving demonstration given for those attending the outing by the life saving corps under the direction of Water Safety Director Earl R. Berg.

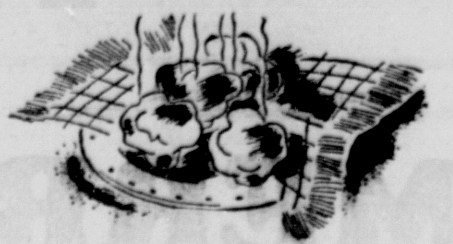

FINED FOR DRUNKENNESS

John Cravens Pleads Guilty to Charge, Previous Record of Man Has Been Good

John E. Cravens pleaded guilty in municipal court this morning before Judge J. H. Warner to a charge of drunkenness, and was sentenced to pay a fine of \$10 or to spend 10 days in the city jail.

Cravens was unable to pay the fine, and because he had a good record previous to this time, Judge Warner gave him a stay of 30 days in which to pay the fine providing he keeps sober and his behavior is good. Cravens was picked up by the police at 3:30 o'clock Sunday morning in front of the Lively Auto company on Laurel street.

Swedish Baptist Prayer Meeting
The Swedish Baptist prayer meeting will be held at the home of Mrs. M. Finney, 1619 Norwood street, on Tuesday evening at 7:45 o'clock. All are welcome.

The Misses Lillian and Charlotte Reimstad left this noon for their home in Minneapolis after spending a couple of weeks in Brainerd as guests at the home of Mr. and Mrs. Roy Wickland, 824 Main street.

Dr. and Mrs. M. A. Shillington left this morning for their home in St. Paul after spending the week end here visiting in the home of Mrs. Shillington's parents, Mr. and Mrs. F. W. Wickland, 407 North Fourth street.

Mr. and Mrs. Nick Langer and children of Rice and Miss Irene Hoerner of Minneapolis spent the week end visiting at the home of Mrs. Joe Hoerner. Mrs. Langer and Miss Hoerner are daughters of Mrs. Hoerner.

Mr. and Mrs. Harvey Lively returned Sunday evening from Willmar where they spent the week end visiting at the home of her parents. Mr. and Mrs. Lively were married last Wednesday evening at Minneapolis.

Mr. and Mrs. William Buckler and son Wayne of Flint, Mich., left for their home today after visiting the past few days at the homes of Mr. and Mrs. Noah Buckler, Mr. and Mrs. F. J. Consey and Mr. and Mrs. Henry Dosh.

Arthur Olson, who is employed at the Northern Pacific shops, is at his home, 1314 Norwood, to convalesce.

HERE IT IS

On a full home job of weather stripping contracts received now for fall installation, prices are as follows:

Average Window, \$2.75
Doors, \$3.00 to \$6.00

These prices are good for 30 days only. All equipment fully guaranteed, and service free of charge for the life of the building.

MRS. GRETA RAHKO
DIES AT HER HOME

Funeral Services to be Held at the Finnish Lutheran Church, on Wednesday Afternoon

Mrs. Greta Rahko passed away at 9:30 o'clock Sunday morning at her home at 1212 Quince Street. She suffered from successive strokes of paralysis, being taken to bed, almost helpless, four weeks ago.

Mrs. Rahko was born in Finland in 1844 and has lived in this country for twenty-five years, twelve of these years in Brainerd. She was an active member of the Finnish Lutheran Church of Brainerd while living here.

She leaves to mourn her loss four daughters, Mrs. Suoma Laakko and Mrs. Saima Leinonen, both of Ishpeming, Mich., Mrs. Elias Kukkonen of New York Mills and Mrs. Jacob Ketteri of Brainerd. She also leaves twenty grandchildren and sixteen great grandchildren, also a host of friends.

Funeral services will be held from the Finnish Lutheran Synod Church, corner of Quince and 14th Streets, at 2 o'clock Wednesday afternoon. Interment will be made in Evergreen cemetery.

HOLD McQUILLIN RITES
HERE THIS AFTERNOON

Funeral services were held this afternoon at 2:30 o'clock for Estie E. McQuillin at the Masonic Hall. He died at his home here last Thursday. At the time of his death he was 59 years of age. He was born in Hamilton, Fillmore county, on Nov. 18, 1870. Mr. McQuillin was married to Hattie Way in 1892 at Aitkin and to this union was born two children, E. W. McQuillin of Brainerd and Mrs. Roy Sherlund of Brainerd.

Mr. McQuillin and family moved to Brainerd in 1907. He was employed by the city of Brainerd as chief engineer. For the last 23 years Mr. McQuillin was always faithful to his work and his family. Mr. McQuillin leaves to mourn his passing his father, Harvey McQuillin, Minneapolis, his wife, a son, E. W. McQuillin and a daughter, Mrs. Roy Sherlund, all of Brainerd; also three sisters, Mrs. Andrew Bridgell of Duluth, Mrs. Lizzie Dawson of Duluth, and Mrs. Martha Cooper of Denver, Colo.

He was a member of the Masonic lodge, the Odd Fellows, Knights of Pythias and the Brotherhood of American Yeoman, the Eastern Star and the Pythian Sisters.

RETURN FROM MOOSE LAKE

Brainerd Delegation Attend Arrowhead Epworth League Institute

Rev. F. A. Kufus and the Misses Ellen Larson, Helen Peters and Marjorie Forsberg returned last evening from Moose Lake where they attended the Arrowhead Epworth League Institute of the Duluth district during the past week.

Rev. Kufus was dean of men and also instructor in the social forum. He was also re-elected as a member of the Epworth League commission.

The institute was said this year to be one of the best institutes ever held. Between 80 and 90 delegates were registered. Among Brainerd visitors at the institute were Mrs. G. E. Senn and her two nieces the Misses Violet and Irma Green.

DeMolay Meet This Evening

Brainerd Boy Wed
In Minneapolis

Miss Evangeline Peyton of Willmar and Harvey Day Lively of this city were married Wednesday evening in Minneapolis at the Trinity Lutheran parsonage. Rev. Huchthausen performing the ceremony.

The attendants were Mr. and Mrs. Paul Buresh of Minneapolis.

The bride wore a gown of green chiffon, with tan slippers. She is the daughter of Mrs. S. Peyton of Willmar. The groom is the son of Mr. and Mrs. G. A. Lively of the city.

After their wedding trip, part of which was spent with her mother at Willmar, Mr. and Mrs. Lively will make their home at the G. A. Lively farm near Brainerd.

Entertain at Breezy Point Dinner
Guests of Mr. and Mrs. Sam Nesheim, 610 Quince street, over the week end were Mr. and Mrs. Earl Eide and family and Mr. and Mrs. Field of St. Paul. Mr. Eide is manager of the St. Paul district of the Prudential Life Insurance company, and Mr. Field is the assistant manager.

Mr. and Mrs. Nesheim entertained their guests at dinner Sunday at Breezy Point.

Stars and Planets

The stars are fixed in space, while the planets travel. The difference is best seen by looking on the planets as other earths, and the stars as other suns.

The Magi

RAIN CUTS CROWD
AT JERICHO OUTING

Only About 500 Brave Morning Rain to Attend All-Day Picnic Held at Lum Park Yesterday

GRAND OFFICERS SPEAK

Picnic Dinner and Luncheon, Sports Program, and Life Saving Demonstration Entertain Visitors

Only about 500 people attended the annual Jericho outing held yesterday at Lum Park. More than twice this number were expected as Odd Fellows from Brainerd and 18 other surrounding northern Minnesota cities and towns were reported to attend. The rainy weather in the morning affected the attendance greatly.

An old-fashioned picnic dinner was held at noon and those that stayed until evening had a picnic luncheon at night.

The meeting was featured by a number of addresses by the grand officers of various branches of the lodge.

E. G. Haymaker, president of the Jericho Outing Association, acted as chairman and introduced the speakers. Among those who spoke were: J. A. Lombard of Minneapolis, grand master; O. M. Anderson of Minneapolis, deputy grand master, Ed Thompson of Hewitt; E. L. Wohl of Ironton, secretary of the association; Mr. Patterson of Staples, treasurer of the association; Leonard Soderberg, grand patriarch; Grace Staples of St. Cloud, president of the Rebekah's assembly; Cora Bartlett, vice president of Hibbing. There were several other speakers.

A program of sports was held in the afternoon, most of the contests conducted being for children. One feature of the afternoon was a life saving demonstration given for the attending the outing by the life saving corps under the direction of Water Safety Director Earl R. Berg.

FINED FOR DRUNKENNESS

John Cravens Pleads Guilty to Charge, Previous Record of Man Has Been Good

John E. Cravens pleaded guilty in municipal court this morning before Judge J. H. Warner to a charge of drunkenness, and was sentenced to pay a fine of \$10 or to spend 10 days in the city jail.

Cravens was unable to pay the fine, and because he had a good record previous to this time, Judge Warner gave him a stay of 30 days in which to pay the fine providing he keeps sober and his behavior is good. Cravens was picked up by the police at 3:30 o'clock Sunday morning in front of the Lively Auto company on Laurel street.

Swedish Baptist Prayer Meeting

The Swedish Baptist prayer meeting will be held at the home of Mrs. M. Finney, 1819 Norwood street, on Tuesday evening at 7:45 o'clock. All are welcome.

TWO STARS AT THE MOVIE CAPITAL

Misses Olive Borden and June Clyde Scheduled to Arrive This Afternoon at Breezy Point

MISS CLYDE IS RKO STAR

Jack Dempsey and Wife, Estelle Taylor, to Come in Early August to Visit Resort

Breezy Point Lodge which last year was dubbed the movie capital of the lake region is today host to two distinguished stars.

Reception to this year's vanguard of moving picture stars was planned for today at Breezy Point with the arrival of Olive Borden and June Clyde scheduled for this afternoon.

Last year Dolores Del Rio, Claire Windsor, Harold Lloyd and other stars spent part of their summer vacations there. The birthday party for Miss Del Rio, with Captain and Mrs. W. H. Fawcett as host and hostess, was given wide publicity in the daily press and in movie journals.

It was made a memorable event and among the scores of telegrams received by the star was one from the Hon. Portes Gil, then president of the Republic of Mexico, extending congratulations. It was cabled in Spanish to the Brainerd Dispatch and transmitted to the star.

Early in August Jack Dempsey and his wife, the actress Estelle Taylor, will visit Breezy Point. They will come from their newly opened ocean hotel in Upper Mexico to inspect the north woods establishment of Capt. Fawcett. Mr. Dempsey is very democratic in manner and approachable. When he was at the Mayo Brothers' clinic in Rochester, the patients stopped thinking and talking about their ailments and operations and spent their time conversing with Dempsey.

Miss Olive Borden is of Irish descent. Her forbears date back to the sixteenth century when her Spanish ancestors were cast up on the Irish coast during the destruction of the Spanish Armada. She was educated in a convent and academy and went to Hollywood in 1922. She is a former Wampas baby star and is now under contract to RKO, her newest talkie being "Companionate." Of bubbling, vibrant personality, she is sparkling in conversation. She talks with a soft, southern accent, especially when excited.

June Clyde is one of the most promising of RKO's youthful stars. A movie magazine recently pictured Sally Blane and June Clyde having a great time when they visited a children's playground just for the thrill of being kids again for a day.

LADIES DAY AT COUNTRY CLUB

With Perfect Golfing Weather Tomorrow, a Large Attendance is Expected

Ladies' Day at the Brainerd Country Club will be held tomorrow, July 22. With the perfect golfing weather, a large crowd is anticipated.

At this time plans will also be discussed for an open day with out of town clubs.

The luncheon will be served at 1:30 o'clock.

Fashions for the Smart Woman

THE JACKET FROCK

A costume in which to applaud the summer golf tournament—this one of Kelly green shantung is combined with white batiste. The color is very new and very becoming and not half as vivid as it sounds with the bright green turf as a background. The one-piece frock has a simulated tuck-in blouse of batiste with a feminine scalloped closing edged with a pleated frill. The skirt, which, by the way, is belted to carry out the two-piece effect, has circular fullness inserted at the sides in curved lines that are typical of the spectator sports fashions. A simple cardigan completes the costume.

Pictorial Printed Pattern No. 5296. Sizes 14 to 46, 65 cents.

Left-Handed

Left-handed children should never be forced to become right-handed. The brain, which controls muscular movements, would be affected, with possible serious results. Tactful training in the use of both hands is all you should do.

DO YOU KNOW?—

That there is always a speck of solid matter in the inside of a raindrop? The raindrop is formed by the water vapor in the air condensing to liquid on this solid speck, just as steam from boiling water condenses on a cold surface.

That there are trees which live more than 100 years and produce profitable crops during the entire period? They are cork trees, which produce a crop of cork every nine or ten years after the first stripping of bark when the tree is 20 years old.

That approximately one hundred tons of the richest carnitite ore are required to produce a thimble-ful of radium 75 per cent pure? An ounce of radium is worth more than \$3,000,000.

That Virginia is called the "Mother of Presidents" because for all but four years of the first thirty-six years of our government, the Presidents of the United States came from Virginia?

CITY BAND HOLDS ANNUAL PICNIC

Group With Families Has Outing at Lake Edward, North of Brainerd Yesterday

GIVE CONCERT

Reed Section Defeats Bass Section in Baseball Game; Older Men Down Young at Horseshoes

Approximately 60 Brainerd people attended the annual picnic of the Brainerd municipal band held yesterday at Lake Edward a short distance north of Brainerd. The picnic was an all day affair and was attended by both band members and their families. There was a picnic dinner at noon and a picnic luncheon in the evening. The band gave a concert between the hours of 5 o'clock and 6 o'clock in

the evening that was very well received.

During the afternoon there was a baseball game between the members of the reed section and the members of the bass section which was won by the latter by a score of 20-19. The game produced a great amount of enjoyment for both the players and the spectators and the members of the bass section admitted this morning that they could not have lost for they had the umpire on their side and the game was called in the seventh inning while they were ahead. The batteries were: reeds, Garceau and Hass; bass, Elinger and J. A. Johnson.

There was also a horseshoe match between the older members of the band and the younger members. The older men were represented by Krause and Elinger and the younger men by Hawkins and Vaughn. The younger men were no match for the older fellows and lost in three straight games. The municipal band will give its next regular concert Wednesday evening at 8 o'clock at Lum Park.

Coffee From Central America Mountain Grown

A COSTA RICAN VILLAGE. Primitive ox carts bring the rare mountain coffees of Central America to market.

MAP OF CENTRAL AMERICAN COFFEE COUNTRY. In the tiny mountain districts shown along the West Coast are grown the rarest coffees in the world.

A Flavor Unlike Any Known Before!

COFFEES from the West Coast of Central America! To those who know and appreciate fine coffee we need say nothing more.

To those who wish to know more—here are the facts:

There is no mystery about coffee. The reason most coffees with different names taste so much alike is simply that they are grown alike. Over 70 per cent of all the coffee entering the United States comes from one common region, where Nature gives it the same common flavor.

Mountain Coffees

The world's choicest flavored coffees, however, come largely from certain tiny mountain districts along the West Coast of Central America. Here Nature gives coffee a rare tang, a mellow richness and body, that experts concede are unrivaled by any other region. These are the rare coffees that make Folger's flavor different.

Years ago this coffee was first served in the famous Bohemian restaurants of San Francisco, where it was brought by Folger. Travellers, captivated by its rare flavor, wrote back for shipments. For it could be obtained nowhere else. Today, however, your grocer has it packed in flavor-tight vacuum tins.

For curiosity's sake—if for no better reason, try it. Let your own taste tell the difference in this true flavor of Central America's mountain grown coffees.

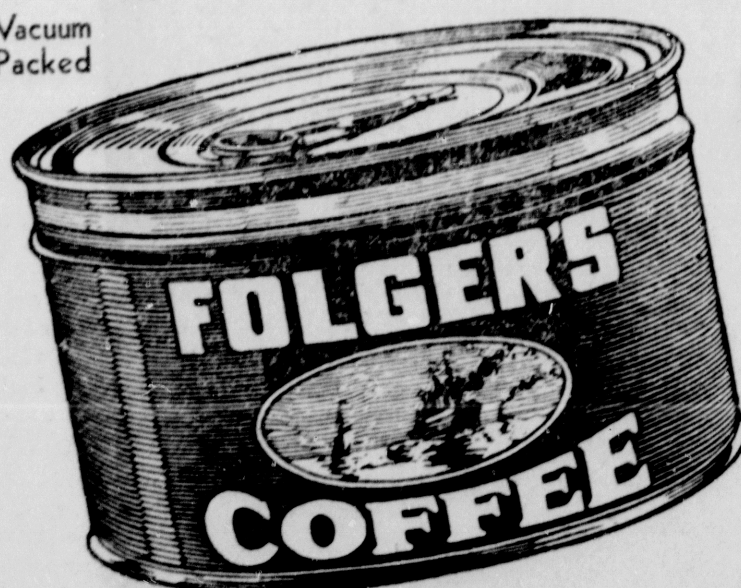

The Test by Taste

Because Folger flavor is so distinctly different, we

make an unusual offer. Buy a pound of this coffee today. Drink it tomorrow morning. Next morning drink your regular coffee. The third morning serve Folger's again. If for any reason you do not choose Folger's, your grocer will gladly refund the full price. We'll pay him. That's fair, isn't it? Why not try it today?

MONDAY, JULY 21, 1930

The Weekly Press

THE story of the beginning of a hundred different Minnesota weeklies might be couched in much the same language as that which acquaints the citizens of a southern Minnesota county with the founding of their weekly newspaper, says the St. Paul Dispatch in an editorial.

The illusion may refer to southern Minnesota, but can hardly be possible in northern Minnesota where the he-men printers of old were built of sterner stuff and preserved a better "front."

The Dispatch continues: Clipped from the files of an old pioneer's correspondence, the following description sets forth the circumstances under which many a flourishing county seat newspaper of today first raised its voice in pioneer communities. "A novel incident occurred about 1873," this narrative runs, "when a man came into town barefooted, ragged and in his shirt sleeves. As usual in those days we corralled him to find out his name and business. He said his name was Jenkins and that he wanted to start a paper. His printing outfit consisting of an old Washington hand press and a few cases of worn out type was hauled in a lumber wagon which was mired in the mud a few miles from town."

Country newspapers, of Minnesota and the nation, have long since lifted themselves, literally and figuratively, "out of the mud." Figures from a survey just completed by the National Editorial Association, under the supervision of Herman Roe of Northfield, Minnesota, indicate how far the weekly press has advanced from the days when its equipment was composed of a "Washington hand press and a few cases of worn type."

The average investment per paper, the survey shows, was \$12,284 in 1929 and the average income reaches a figure that would have endowed the humble journals of the seventies with wealth beyond the dreams of their publishers' avarice.

In affluence and influence the weekly newspapers of the nation have attained a success the brilliance of which is not dimmed by the most sensational achievements of the greatest newspapers of the land. Hope for the country's future is brightened by the knowledge that the weekly press of the land is prospering materially as well as perpetuating the traditions of independence and courage which is its heritage.

The Heat Wave

WHILE the midwest and eastern Atlantic area are sweltering in a heat wave which is actually shrivelling up crops, killing people and making life miserable for others, we find the Brainerd Lake Region basking in temperatures that do not sap the life out of you.

On many occasions we have found that while the country surrounding Brainerd and the lake country has harbored storms, gales and even cyclones, this section has come through unscathed. No doubt if the midwest and east knew of the livable conditions in the Brainerd Lake Area, every family would crank up the flivver and migrate to Minnesota.

We have much to be thankful for in our lake area, for good climate, good crop indications, rainfall when needed, good roads, fine lakes, wonderful woods and life giving ozone. Many a man does not realize what we have until he takes a trip east and surveys conditions.

One remembers a July trip through Maine to Massachusetts. The railroads traversed used soft coal. If you opened the car window for a draft of fresh air, that is comparatively fresh with a 95 degree temperature, you were greeted with a burst of soft coal smoke and cinders from the engine. About the only indoor sport was shaving with a safety razor, and washing up every hour or so.

Heat in the cities means more suffering than in open country like here at Brainerd. Rows of apartment houses, in close proximity, or big office buildings in canyon-like city streets, carry little coolness, but reflect the heat and the radiation so obtained causes heat to mount still higher.

Endurance Contests

WE have read and heard a lot about endurance contests of all kinds, tree sitting, flagpole sitting, marathon dancing, marathon running, refueling airplane circling about an airport, etc., but who has ever started one in dish washing, wood chopping or any other homely pursuits.

It is believed that if a group of Brainerd girls were to start a dish washing contest they would gain a lot of attention. This would have to be washing dishes by hand and not skipping them through an electric dish washer which many of the hotels and big resorts boast in this lake country.

And where has the ancient and honorable pursuit of wood chopping gone? There were days in England when Gladstone hewed down trees and all Britain and the rest of the world kept tab. Now Gladstone is gone and the only woodchopping indulged in by a celebrity is that of the hand ax variety of the former Kaiser of Germany at his retreat in Holland. There is a little tree chopping out at the lakes when Father attacks some tree that has died and outlived its usefulness and whose scraggly, ghost-like limbs are raised like supplicating hands. After one case of tree chopping he is willing to rest for the balance of the day.

If you will keep tab of the various endurance contests now featured, they do not in the end add anything to the world's possessions or store of knowledge. To run a machine until the machine breaks or the operator succumbs, is not a great spectacle. We suppose if some woman ran a washing machine day and night until the washer snagged or she dropped from exhaustion, she would not get a line in the papers.

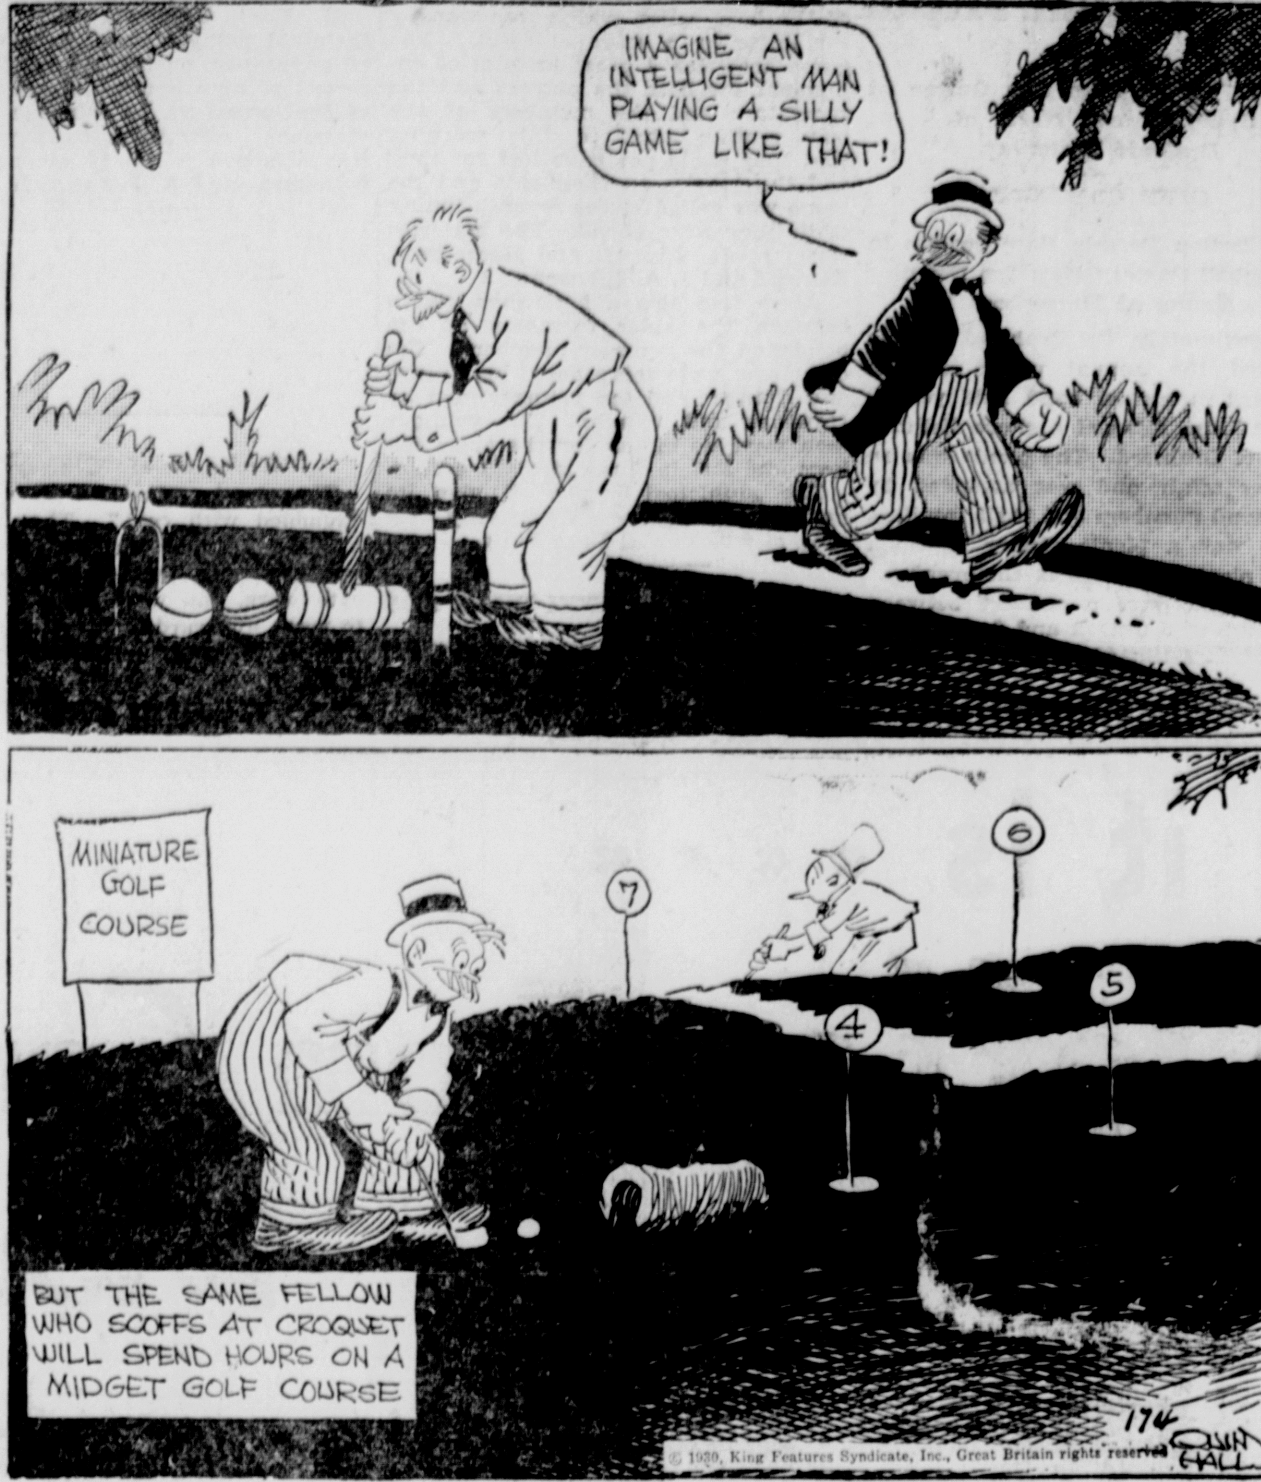

Constant Advertising Necessary

OUR lake country is just like merchandising. Constant advertising is necessary. There is a constant fluctuation in trade and there is the same state of flux in the tourist business. It takes advertising to gain new business and more advertising to hold what we have. There is a constant growth and new customers in merchandising as well as tourist business.

One cannot rest on his laurels of past years. New customers need sales talks and education. It is only by constant repetition of a message that the truth is borne home.

Some standard household articles, once generally and regularly advertised, become but a memory when the advertising is neglected for a year or two. Keeping everlastingly at it is the keystone to success.

The Weekly Press

THE story of the beginning of a hundred different Minnesota weeklies might be couched in much the same language as that which acquaints the citizens of a southern Minnesota county with the founding of their weekly newspaper, says the St. Paul Dispatch in an editorial.

The illusion may refer to southern Minnesota, but can hardly be possible in northern Minnesota where the he-men printers of old were built of sterner stuff and preserved a better "front."

The Dispatch continues: Clipped from the files of an old pioneer's correspondence, the following description sets forth the circumstances under which many a flourishing county seat newspaper of today first raised its voice in pioneer communities. "A novel incident occurred about 1873," this narrative runs, "when a man came into town barefooted, ragged and in his shirt sleeves. As usual in those days we corralled him to find out his name and business. He said his name was Jenkins and that he wanted to start a paper. His printing outfit consisting of an old Washington hand press and a few cases of worn out type was hauled in a lumber wagon which was mired in the mud a few miles from town."

Country newspapers, of Minnesota and the nation, have long since lifted themselves, literally and figuratively, "out of the mud." Figures from a survey just completed by the National Editorial Association, under the supervision of Herman Roe of Northfield, Minnesota, indicate how far the weekly press has advanced from the days when its equipment was composed of a "Washington hand press and a few cases of worn type."

The average investment per paper, the survey shows, was \$12,284 in 1929 and the average income reaches a figure that would have endowed the humble journals of the seventies with wealth beyond the dreams of their publishers' avarice.

In affluence and influence the weekly newspapers of the nation have attained a success the brilliance of which is not dimmed by the most sensational achievements of the greatest newspapers of the land. Hope for the country's future is brightened by the knowledge that the weekly press of the land is prospering materially as well as perpetuating the traditions of independence and courage which is its heritage.

The Heat Wave

WHILE the midwest and eastern Atlantic area are sweltering in a heat wave which is actually shrivelling up crops, killing people and making life miserable for others, we find the Brainerd Lake Region basking in temperatures that do not sap the life out of you.

On many occasions we have found that while the country surrounding Brainerd and the lake country has harbored storms, gales and even cyclones, this section has come through unscathed. No doubt if the midwest and east knew of the livable conditions in the Brainerd Lake Area, every family would crank up the flivver and migrate to Minnesota.

We have much to be thankful for in our lake area, for good climate, good crop indications, rainfall when needed, good roads, fine lakes, wonderful woods and life giving ozone. Many a man does not realize what we have until he takes a trip east and surveys conditions.

One remembers a July trip through Maine to Massachusetts. The railroads traversed used soft coal. If you opened the car window for a draft of fresh air, that is comparatively fresh with a 95 degree temperature, you were greeted with a burst of soft coal smoke and cinders from the engine. About the only indoor sport was shaving with a safety razor, and washing up every hour or so.

Heat in the cities means more suffering than in open country like here at Brainerd. Rows of apartment houses, in close proximity, or big office buildings in canyon-like city streets, carry little coolness, but reflect the heat and the radiation so obtained causes heat to mount still higher.

Endurance Contests

WE have read and heard a lot about endurance contests of all kinds, tree sitting, flagpole sitting, marathon dancing, marathon running, refueling airplane circling about an airport, etc., but who has ever started one in dish washing, wood chopping or any other homely pursuits.

It is believed that if a group of Brainerd girls were to start a dish washing contest they would gain a lot of attention. This would have to be washing dishes by hand and not skipping them through an electric dish washer which many of the hotels and big resorts boast in this lake country.

And where has the ancient and honorable pursuit of wood chopping gone? There were days in England when Gladstone hewed down trees and all Britain and the rest of the world kept tab. Now Gladstone is gone and the only woodchopping indulged in by a celebrity is that of the hand ax variety of the former Kaiser of Germany at his retreat in Holland. There is a little tree chopping out at the lakes when Father attacks some tree that has died and outlived its usefulness and whose scraggly, ghost-like limbs are raised like supplicating hands. After one case of tree chopping he is willing to rest for the balance of the day.

If you will keep tab of the various endurance contests now featured, they do not in the end add anything to the world's possessions or store of knowledge. To run a machine until the machine breaks or the operator succumbs, is not a great spectacle. We suppose if some woman ran a washing machine day and night until the washer snagged or she dropped from exhaustion, she would not get a line in the papers.

GREATEST FIELD OF GOLFING STARS IN WESTERN AMATEUR

SEEK TO WREST FROM DON MOE HIS CHAMPIONSHIP

TITLE WON BY PORTLAND, ORE. YOUTH IN LAST YEAR'S PLAY

THE FIELD INCLUDES ALL OF AMERICA'S LEADING "NON-PROFIT" PLAYERS
By BERT DEMBY
(United Press Staff Correspondent)

Chicago, July 20.—The greatest field of golfing stars the event ever has drawn took off in the Western Amateur tournament today, seeking to wrest from Don Moe the championship which the Portland, Ore., youth won last year.

The field included all of America's leading "non-profit" players and two of England's best, besides a horde of dark horses and near stars who brought the number of players to 200. As each golfer left the first tee he began a trip around one of Chicago's hardest courses, a par 71 links which does not have a single par 5 hole under 530 yards. The fairways are among the narrowest in the country.

Although there wasn't an outstanding favorite on the course, there were half a dozen names prominently mentioned.

Among these were the two Englishmen, Cyril Tolley and T. Phillip Perkins, each of whom has won the Amateur championship of his own country. Perkins also was once runner-up to Bobby Jones in this country.

Foremost among American names mentioned were Moe, Chick Evans, veteran of 40, Keefe Carter, former Western Amateur champion; and Gibson Dunlap, collegiate sensation.

Moe, by virtue of his holding the title, is not required to qualify and will not play until he and 31 others, the qualifiers, tee off on Wednesday morning.

Evans, the only man who ever won both the National Open and Amateur of this country in the same year, has won the Western Amateur enough times to lose count. He hopes to win

NEW YORK GIANTS NARROW GAP, RACING FOR LEAD

it again by way of presenting himself a 40th birthday present. He was 40 years old last Friday.

Another of the pre-tournament favorites, Johnny Goodman of Omaha, announced today that he will not enter the meet.

Robins drop a sloppy game to the St. Louis Cardinals.

Chicago now 3 percentage points back of Brooklyn.

The New York Giants have narrowed the gap between their third place position in the National League and the leading Brooklyn Robins and Chicago Cubs. The Giants beat the Cubs yesterday but the Robins also lost, dropping a sloppy game to the St. Louis Cardinals.

The Cubs, although losing, more than kept pace with the Robins, for Chicago is now three percentage points back of Brooklyn. The Cubs were four points behind after Saturday's games.

The Giants turned in a 13-5 victory over Chicago, collecting 17 hits off Rush, Shealy, Nelson and Moss.

Brooklyn's Robins fell under a 15-6 score in their game with the Cards. St. Louis scored seven runs in the second. It was the second successive Sunday on which the Robins lost before a home crowd.

The Cincinnati Reds were halted in their upward fling when they dropped the last half of a double at Boston. The Reds won the first game, 8-3, behind the fine pitching of Red Lucas who allowed eight scattered hits, but faltered badly in the second game which the Braves won, 13-1.

The split left the Reds and Braves still tied for sixth place in the National.

Philadelphia's Athletics improved their hold on first place in the American League, winning over Detroit, 5-3. Washington and New York were defeated. The Cleveland Indians topped the Yanks by 9 to 8, while the seventh place St. Louis Browns won by 8 to 6 over the Senators.

Three New York homers, two by Lou Gehrig, and one by Babe Ruth, were wanted.

The Chicago White Sox soared upwards by winning twice over Boston. The first game was easy and the score was 16 to 4. The second game score was 5 to 4.

STEPPING ON TAIL OF BROOKLYN AND THE CHICAGO CUBS

ROBINS DROP A SLOPPY GAME TO THE ST. LOUIS CARDS

CHICAGO NOW 3 PERCENTAGE POINTS BACK OF BROOKLYN

(By United Press)

The New York Giants have narrowed the gap between their third place position in the National League and the leading Brooklyn Robins and Chicago Cubs. The Giants beat the Cubs yesterday but the Robins also lost, dropping a sloppy game to the St. Louis Cardinals.

The Cubs, although losing, more than kept pace with the Robins, for Chicago is now three percentage points back of Brooklyn. The Cubs were four points behind after Saturday's games.

The Giants turned in a 13-5 victory over Chicago, collecting 17 hits off Rush, Shealy, Nelson and Moss.

Brooklyn's Robins fell under a 15-6 score in their game with the Cards. St. Louis scored seven runs in the second. It was the second successive Sunday on which the Robins lost before a home crowd.

The Cincinnati Reds were halted in their upward fling when they dropped the last half of a double at Boston. The Reds won the first game, 8-3, behind the fine pitching of Red Lucas who allowed eight scattered hits, but faltered badly in the second game which the Braves won, 13-1.

The split left the Reds and Braves still tied for sixth place in the National.

Philadelphia's Athletics improved their hold on first place in the American League, winning over Detroit, 5-3. Washington and New York were defeated. The Cleveland Indians topped the Yanks by 9 to 8, while the seventh place St. Louis Browns won by 8 to 6 over the Senators.

Three New York homers, two by Lou Gehrig, and one by Babe Ruth, were wanted.

The Chicago White Sox soared upwards by winning twice over Boston. The first game was easy and the score was 16 to 4. The second game score was 5 to 4.

American Association Tabs
Louisville, July 21.—Six runs in the sixth inning gave the Louisville Colonels a 9 to 1 victory over Toledo here yesterday. Helmach, traded to Brooklyn, pitched the last two innings for the Mudhens and allowed no more runs.

Minneapolis, July 21.—Griffin's home run in the eighth inning broke a tie, and accounted for Minneapolis' win from St. Paul, 10 to 9, here yesterday.

Columbus, July 21.—The Columbus Senators took a 12-inning opener with Indianapolis, 7 to 6, here yesterday. The nightcap was called at the end of the ninth in a 7 to 7 deadlock, because of darkness.

Kansas City, July 21.—Milwaukee defeated the Kansas City Blues, 5 to 4, in an overtime battle that lasted 11 innings here yesterday. Fette allowed the visitors seven hits, one less than the Blues got off Robertson.

GIRL ENCOUNTERS BEAR ON WESTWARD HO GOLF LINKS
Chicago, July 21.—(U.P.)—Instead of a birdie, Miss Lillian Wiegman, 23, encountered a bear on the Westward Ho golf links. She made the club house under par and police officers put a bullet through the animal for a hole in one. The bear was a pet and had wandered away from its owner.

Why Argue! Spit is a horrid word, but it's worse if on the end of your cigar

One of many actual photographs of "spit-tipping" cigar makers. The above picture was taken in Philadelphia, Pa., April 14, 1930. An affidavit from the photographer is on file, showing that this workman used spit in finishing the ends of cigars.

... the war against Spitting is a crusade of decency... join it. smoke **CERTIFIED CREMO!**

Over 7,500 cigar factories are registered by the U. S. Government. Over 7,400 of these hand-roll cigars, producing 50 percent of the output. Every hand-rolled cigar—made by American Cigar Co. or anyone else—is subject to the possible danger of "spit-tipping." Certified Cremo is absolutely free from spit-tipping—No Cremo is made by hand.

Certified Cremo is a really wonderful smoke—mild—mellow—nut-sweet! Every leaf entering the clean, sunny Cremo factories is scientifically treated by methods recommended by the United States Department of Agriculture. And its purity is safeguarded along every step of the way by amazing inventions that bind, roll, wrap and tip the cigars!

A Return Engagement?

By HARDIN BURNLEY

WHILE mid-July standings do not exactly put the Chicago Cubs and the Philadelphia Athletics in a rehearsal of another World Series song-and-dance act, there are many portents that these teams will again fight it out next Fall for baseball supremacy.

The Chicubs had their Brooklyn and the Mackmen their Washington well into July and those early front runners are liable to other sports, but, as the annual big league grind sweeps into mid-Summer, expert and general fan opinion forecasts a repeat by the 1929 winners in the National and American leagues.

However, the above opinion is not held by Washington, Brooklyn, Pittsburgh or New York fans. "Ol' Fox" Clark Griffith, ably assisted by Manager Sir Walter Johnson, has the Senators geared to a pennant pitch and, unless something cracks badly, they'll go down the season's homestretch neck and neck with the Athletics.

Brooklyn has been the powerful surprise in the senior league thus far this year. Hitting hard and handsomely from the start, "Uncle Wilbert" Robinson's sluggers set the pace ever since last April. Despite a most discouraging epidemic of injuries and the death of one of their pitching stars, Hal

Carlson, the Cubs—even without "Rajah" Hornsby—have been steadily forging to the fore in an admirable fight for the lead.

Those who think the A's and the Cubs will come through again base their opinions on the way in which their pitching staffs have rounded into formidable midseason condition. Just now, the Sport Bug is inclined to agree that their mound artillerymen and their heavy guns at bat will outlast those of their rivals.

But there are many weeks ahead and, if that 1929 World Series duo start responding to an encore too soon, either or both may get baseball's hook quite summarily.

GREATEST FIELD OF GOLFING STARS IN WESTERN AMATEUR

SEEK TO WREST FROM DON MOE HIS CHAMPIONSHIP

TITLE WON BY PORTLAND, ORE., YOUTH IN LAST YEAR'S PLAY

THE FIELD INCLUDES ALL OF AMERICA'S LEADING "NON-PROFIT" PLAYERS
By BERT DEMBY
(United Press Staff Correspondent)

Chicago, July 20.—The greatest field of golfing stars the event ever has drawn teed off in the Western Amateur tournament today, seeking to wrest from Don Moe the championship which the Portland, Ore., youth won last year.

The field included all of America's leading "non-profit" players and two of England's best, besides a horde of dark horses and near stars who brought the number of players to 200.

As each golfer left the first tee he began a trip around one of Chicago's hardest courses, a par 71 links which does not have a single par 5 hole under 530 yards. The fairways are among the narrowest in the country.

Although there wasn't an outstanding favorite on the course, there were half a dozen names prominently mentioned.

Among these were the two Englishmen, Cyril Tolley and T. Phillip Perkins, each of whom has won the Amateur championship of his own country. Perkins also was once runner-up to Bobby Jones in this country.

Foremost among American names mentioned were Moe, Chick Evans, veteran of 40, Keefe Carter, former Western Amateur champion; and Gibson Dunlap, collegiate sensation.

Moe, by virtue of his holding the title, is not required to qualify and will not play until he and 31 others, the qualifiers, tee off on Wednesday morning.

Evans, the only man who ever won both the National Open and Amateur of this country in the same year, has won the Western Amateur enough times to lose count. He hopes to win

NEW YORK GIANTS NARROW GAP, RACING FOR LEAD

it again by way of presenting himself a 40th birthday present. He was 40 years old last Friday.

Another of the pre-tournament favorites, Johnny Goodman of Omaha, announced today that he will not enter the meet.

STEPPING ON TAIL OF BROOKLYN AND THE CHICAGO CUBS

ROBINS DROP A SLOPPY GAME TO THE ST. LOUIS CARDS

CHICAGO NOW 3 PERCENTAGE POINTS BACK OF BROOKLYN

(By United Press)

The New York Giants have narrowed the gap between their third place position in the National League and the leading Brooklyn Robins and Chicago Cubs. The Giants beat the Cubs yesterday but the Robins also lost, dropping a sloppy game to the St. Louis Cards.

The Cubs, although losing, more than kept pace with the Robins, for Chicago is now three percentage points back of Brooklyn. The Cubs were four points behind after Saturday's games.

The Giants turned in a 13-5 victory

over Chicago, collecting 17 hits off Bush, Shealy, Nelson and Moss. The Brooklyn Robins fell under a 15-6 score in their game with the Cards. St. Louis scored seven runs in the second. It was the second successive Sunday on which the Robins lost before a home crowd.

The Cincinnati Reds were halted in their upward fling when they dropped the last half of a double at Boston. The Reds won the first game, 8-5, behind the fine pitching of Red Lucas who allowed eight scattered hits, but faltered badly in the second game which the Braves won, 13-1.

The split left the Reds and Braves still tied for sixth place in the National.

Philadelphia's Athletics improved their hold on first place in the American League, winning over Detroit, 5-3.

The other American League leaders, Washington and New York, were defeated. The Cleveland Indians topped the Yanks by 9 to 8, while the seventh place St. Louis Browns won by 8 to 6 over the Senators.

Three New York homers, two by Lou Gehrig, and one by Babe Ruth, were wasted.

The Chicago White Sox soared upwards by winning twice over Boston. The first game was easy and the score was 16 to 4. The second game score was 5 to 4.

BARES REVENGE IN KILLING OF BRIDE

Murderer Leaves Note for Young Husband.

Ottawa.—With the self-confessed slayer already under arrest, police are still seeking to unravel a web of mystery which shrouds the death of Mrs. Olga James, nineteen-year-old bride of Reginald James.

William Neilson, sixty-one, has confessed that he strangled the young woman in her home, leaving a note to her husband as follows:

"This is your dirty work, that you have done on me. It may be a lesson to you not to treat any other man that way. You got this woman to play the most rotten game she could play on a man. Now see what you have done."

Keeps Motive Secret.

But Neilson, although admitting the crime, still maintains silence as to the motive which prompted him, and refuses to explain the note which he left. The slayer, a painter by trade, was employed in decorating the James home last fall, just after James and his bride had moved into it. He still retained a key to the front door, police state, and effected an entry in this way.

James discovered his wife dead when he returned home for lunch. She lay in her bedroom, still in her nightdress, a six foot length of cord from a window sash weight knotted around her throat.

Trace Slayer.

Neighbors told of having seen an elderly man enter the James home soon after the husband had left it in the morning. The contractor who had built the home stated that the description fitted Neilson, one of the painters who had been engaged on the house. Police arrested Neilson, a widower, at his rooming house, and found bloodstains on his clothes.

Mrs. James was well known in Ottawa's younger social set, being the daughter of Edward Nelson, secretary-treasurer of the Ottawa Institute for the Blind.

West Point Is Worried

by Lack of Territory

West Point, N. Y.—The United States Military academy here faces a serious problem because of the lack of its own water supply, aviation field and inadequate space for its artillery ranges, according to Maj. Gen. William R. Smith, superintendent.

It may even be necessary to move the one hundred and fifty-year-old institution from its present site in order to remedy this, Maj. Gen. Smith said. The academy gets its water from two near-by lakes, both off its property, when there is an overflow. When there is no overflow, the academy gets no water, according to Maj. Gen. Smith.

He said the use of the old artillery range has been rendered impossible by building of Storm King road, and that the only desirable airplane landing field is the Cragston club property, nearby. The academy expends \$25,000 annually to send its pupils to an aviation training, he said.

Bandit Quits Holdup

for Limberger Cheese

Newark, N. J.—Resting an arm on the counter, a timorous bandit hesitantly displayed an automatic revolver to Edward Cohen, delicatessen dealer, of 133 Wilson avenue, the other day, and said: "Hand over \$10."

Cohen demurred. "Why should I give you \$10? I'll buy the gun, maybe," he said.

The bandit looked doubtful. "I can't get up the nerve to shoot you," he sighed. "I ought to do it, I suppose."

Moments of embarrassed silence on the part of both followed. "Well, give me a quarter's worth of cheese—limberger," the bandit said finally and threw down a quarter. Cohen complied and watched his bandit-customer disappear. That's the story he told later to Detectives Joseph J. Kenny and John F. Bowbliss.

Sword of Stuyvesant

Given to N. Y. Museum

New York.—Peter Stuyvesant's sword, worn by the last Dutch colonial governor of New York nearly 300 years ago, has been presented to the Museum of the City of New York by De Lancey Kounze, according to announcement from the museum. The sword is 27½ inches long, with a wooden grip and a tightly laced leather scabbard bound in brass.

Through six generations the weapon came down to Henry Stuyvesant, who died in 1919. The latter gave the sword to Mrs. Annie Parsons Kounze, his cousin, in 1895. She in turn gave it to her son, the present donor.

Child's Fists Rout Dog

After Attack on Brother

San Francisco.—Without even looking for a club, Laura McFarland, thirteen years old, beat off with her bare fists a police dog that had attacked her four-year-old brother while the latter was petting the animal. The attack took place in the woods near here and after driving off the dog Laura carried her brother through a dense growth of poison ivy to the road and hailed a passing car.

Doctors said the boy, although severely torn by the dog's fangs, would recover.

SAID BY SAGES

Even good advice can fall flat.

Few care about your troubles.

Faultfinding strains friendship.

How grave and serious is an ass!

The greatest prevailing illusion is chicken salad.

A man who borrows trouble, always borrows too much.

Some men don't seem to come to life until they go downtown.

There needs to be low-brow literature; yet it need not be vile.

You may plan a fight, but you can't plan the other fellow's moves.

If the next war is "humanized," there will be no spiral putties.

Secret of success is not always work. Sometimes, it is gumption.

Seldom are men convinced by argument. You've got to outvote them.

Obstinacy in a bad cause is but constancy in a good.—Sir Thomas Browne.

One way of "taking arms against a sea of troubles" is to go to the theater.

Honest bread is very well—it's the butter that makes the temptation.—Jerold.

When out of breath you catch it quicker by standing still than by running after it.

When you call on a man, try to carry him a compliment some one has passed on him.

Experience is a pretty dear teacher—when it comes in the form of a pretty schoolma'am.

Usually, the company of people who want to be wicked for fun grows tiresome—and they are shallow.

Justice falls in this country chiefly because jurisprudence has provided so many hurdles and handicaps for it.

Here's Additional Proof

That Silence Is Golden

Elihu Root said in an after-dinner speech in New York on his return from Geneva:

"Silence is golden in diplomacy. It is golden everywhere.

"Once upon a time a corpse in a bathing suit was fished out of the sea and sent to an undertaker's. A rich young man called the next day and identified the corpse as his father. The young man was giving orders to the undertaker for the most expensive burial in the establishment's program when the mouth of the corpse fell open, and a row of false teeth dropped out.

"That's not father," said the young man, and he hurried away.

"The undertaker had been putting the corpse into a mahogany coffin with gold trimmings, but now he put it back on its stone slab again.

"Idiot!" he said to it. "If you'd kept your mouth shut you'd have had an A-1 funeral."

Defies Intense Heat

One of the constantly occurring problems of industry is the demand for crucible which will stand the intense heat temperature required in some branches of metallurgy. The experiment station of the bureau of mines has been giving this matter some attention. As a result crucible for holding molten mixtures of iron sulphates and oxides for 45 minutes at a temperature of 1,500 degrees centigrade without appreciable seepage have recently been developed.

Auto Tires in Color

The craze for color has taken the form of a demand for automobile tires to match the car. In Great Britain and on the continent automobile manufacturers are offering vehicles on which the tires match the body of the car perfectly. The claim is made that the tires thus treated with the special material designed for the purpose are preserved and therefore last much longer, but the principal object is the harmonious color effect.

Synthetic Bee Stings Out

Perfection of synthetic bee stings has been announced by the medical laboratory of Vienna, Austria. Professors of the Polytechnic hospital made chemical analysis bee venom and claim to have succeeded in duplicating and improving it. The stinging chemical is said to cure rheumatism.

His Difficulty

Bill was not strong for arithmetic. One day his mother saw his arithmetic paper with a very low grade on it. She asked him what was wrong.

"We are studying dismal points now and I never get the point in the right place," said Bill.

His Old Style

"How's your football star at office work?"

"He wants to save the day in the last three minutes of play."

Relax at the Office

Home life has speeded up to such an extent that it is a relief to get down to the office where you can relax.—Iffe.

You Can't Train An Athlete On Nothing But Climate!

EDITOR'S NOTE

The University of Southern California's victory at Cambridge this spring, (its third in ten years in this historic annual meeting of college athletes), was not only a decisive triumph for the men competing but also a practical demonstration of the soundness of their training methods. We have asked Mr. Cromwell to tell us something about what he feeds his men, how he kept them fit during the long trek across the country, and what he considers the most important factors in keeping in trim, not only for competitive sports, but also for every day life.

—EDITOR.

By Dean B. Cromwell

(Track coach of the University of Southern California—winners of the 54th annual I. C. A. A. A. meet at Cambridge, Mass.)

IT is quite understandable that track enthusiasts, in reviewing the fact that nine of the last ten I.C.A.A.A.A. meets have been won by teams from the Pacific Coast, draw the conclusion that climate must be the complete answer to the question, "How do they do it?"

There is no question that athletes in Southern California do have greater opportunity to train in the open, but in my opinion, at least as far as my own men are concerned, it's more what they eat that gives them the drive and stamina to win meets.

It has been my experience that the greatest handicap an athlete has to overcome in building up his body is to take care of the "ashes," as I call the residue.

And with this in view, I always have emphasized the need for roughage to provide bulk in the diet. This is gained through eating fibrous or leafy vegetables and plenty of those cereals which have the necessary cellulose de-

signed to give a "vegetable" effect.

One of the things of which I am proudest is the fact that I have developed in my men a wholesome attitude toward this need for proper elimination of the "ashes" through including quantities of bulky foods in their diet.

They wade into a meal of vegetables, salads or cereals with a zest that shows their appetites are in com-

plete accord with these sound views on diet. They eat these foods; they like them; and all the rest of their lives, long

after they have left college, they will continue to employ this natural means of keeping fit. For breakfast, I feed my men fruits and cereals that have the

bulky qualities necessary to achieve the desired "vegetable effect." Among such cereals, one which I find particularly palatable and effective is whole rice. This delicious breakfast dish offers its cellulose bulk in an unusually smooth form.

For lunch, I see that the men eat salad—and by salad, I mean SALAD—not one of those dainty little affairs one finds at the Ritz, but big heaping plates of leafy and fibrous

vegetables.

Here again, you see, I keep in mind the need for ample cellulose to help get rid of the "ashes."

Dinner includes meat—and more vegetables. You will notice that roughage, in the form of cellulose derived from one type of food or another, thus has been included in every meal. My experience in

bringing twenty men East for the meet at Cambridge this Spring strikingly illustrates what such careful dietary habits will do. Here were twenty men, keyed up for the big track meet of the year, yet forced to remain idle for a whole week during their monotonous trip across the country. Not one man, however, with the single exception of Frank Wykoff, varied a pound from his normal weight. And Wykoff I was deliberately allowing to put on a bit of weight as he burns up three to four pounds in a single afternoon's competition in the 100-yard dash.

Such eating habits are as worth cultivating by the average office worker as they are by an athlete in active training. We all feel better, have more pep, and are capable of better work when we are not burdened with poisonous "ashes" which diets deficient in cellulose are unable to remove. Try including more fibrous and leafy vegetable foods in your daily diet. Eat more food which can supply this vitally necessary "vegetable effect," and you will not wonder at the consistency of Southern California's athletes. Climate is great stuff—but it needs a little sensible help.

BARES REVENGE IN KILLING OF BRIDE

Murderer Leaves Note for Young Husband.

Ottawa.—With the self-confessed slayer already under arrest, police are still seeking to unravel a web of mystery which shrouds the death of Mrs. Olga James, nineteen-year-old bride of Reginald James.

William Neilson, sixty-one, has confessed that he strangled the young woman in her home, leaving a note to her husband as follows:

"This is your dirty work, that you have done on me. It may be a lesson to you not to treat any other man that way. You got this woman to play the most rotten game she could play on a man. Now see what you have done."

Keeps Motive Secret.

But Neilson, although admitting the crime, still maintains silence as to the motive which prompted him, and refuses to explain the note which he left. The slayer, a painter by trade, was employed in decorating the James home last fall, just after James and his bride had moved into it. He still retained a key to the front door, police state, and effected an entry in this way.

James discovered his wife dead when he returned home for lunch. She lay in her bedroom, still in her nightdress, a six foot length of cord from a window sash weight knotted around her throat.

Trace Slayer.

Neighbors told of having seen an elderly man enter the James home soon after the husband had left it in the morning. The contractor who had built the home stated that the description fitted Neilson, one of the painters who had been engaged on the house. Police arrested Neilson, a widower, at his rooming house, and found bloodstains on his clothes.

Mrs. James was well known in Ottawa's younger social set, being the daughter of Edward Nelson, secretary-treasurer of the Ottawa Institute for the Blind.

West Point Is Worried by Lack of Territory

West Point, N. Y.—The United States Military academy here faces a serious problem because of the lack of its own water supply, aviation field and inadequate space for its artillery ranges, according to Maj. Gen. William R. Smith, superintendent.

It may even be necessary to move the one hundred and fifty-year-old institution from its present site in order to remedy this, Maj. Gen. Smith said. The academy gets its water from two nearby lakes, both off its property, when there is an overflow. When there is no overflow, the academy gets no water, according to Maj. Gen. Smith.

He said the use of the old artillery range has been rendered impossible by building of Storm King road, and that the only desirable airplane landing field is the Cragston club property, nearby. The academy expends \$25,000 annually to send its pupils to an aviation training, he said.

Bandit Quits Holdup for Limberger Cheese

Newark, N. J.—Resting an arm on the counter, a timorous bandit hesitantly displayed an automatic revolver to Edward Cohen, delicatessen dealer, of 133 Wilson avenue, the other day, and said: "Hand over \$10."

Cohen demurred. "Why should I give you \$10? I'll buy the gun, maybe," he said.

The bandit looked doubtful. "I can't get up the nerve to shoot you," he sighed. "I ought to do it, I suppose."

Moments of embarrassed silence on the part of both followed. "Well, give me a quarter's worth of cheese—Limberger," the bandit said finally and threw down a quarter. Cohen complied and watched his bandit-customer disappear. That's the story he told later to Detectives Joseph J. Kenny and John F. Bowlbliss.

Sword of Stuyvesant Given to N. Y. Museum

New York.—Peter Stuyvesant's sword, worn by the last Dutch colonial governor of New York nearly 300 years ago, has been presented to the Museum of the City of New York by De Lancey Kounze, according to announcement from the museum. The sword is 27½ inches long, with a wooden grip and a tightly laced leather scabbard bound in brass.

Through six generations the weapon came down to Henry Stuyvesant, who died in 1919. The latter gave the sword to Mrs. Annie Parsons Kounze, his cousin, in 1895. She in turn gave it to her son, the present donor.

Child's Fists Rout Dog After Attack on Brother

San Francisco.—Without even looking for a club, Laura McFarland, thirteen years old, beat off with her bare fists a police dog that had attacked her four-year-old brother while the latter was petting the animal. The attack took place in the woods near here and after driving off the dog Laura carried her brother through a dense growth of poison ivy to the road and hailed a passing car.

Doctors said the boy, although severely torn by the dog's fangs, would recover.

SAID BY SAGES

Even good advice can fall flat.

Few care about your troubles.

Faultfinding strains friendship.

How grave and serious is an ass!

The greatest prevailing illusion is chicken salad.

A man who borrows trouble, always borrows too much.

Some men don't seem to come to life until they go downtown.

There needs to be low-brow literature; yet it need not be vile.

You may plan a fight, but you can't plan the other fellow's moves.

If the next war is "humanized," there will be no spiral putties.

Secret of success is not always work. Sometimes, it is gumption.

Seldom are men convinced by argument. You've got to outvote them.

Obstinacy in a bad cause is but constancy in a good.—Sir Thomas Browne.

One way of "taking arms against a sea of troubles" is to go to the theater.

Honest bread is very well—it's the butter that makes the temptation.—Jerrold.

When out of breath you catch it quicker by standing still than by running after it.

When you call on a man, try to carry him a compliment some one has passed on him.

Experience is a pretty dear teacher—when it comes in the form of a pretty schoolma'am.

Usually, the company of people who want to be wicked for fun grows tiresome—and they are shallow.

Justice fails in this country chiefly because jurisprudence has provided so many hurdles and handicaps for it.

Here's Additional Proof

That Silence Is Golden

Elihu Root said in an after-dinner speech in New York on his return from Geneva:

"Silence is golden in diplomacy. It is golden everywhere.

"Once upon a time a corpse in a bathing suit was fished out of the sea and sent to an undertaker's. A rich young man called the next day and identified the corpse as his father. The young man was giving orders to the undertaker for the most expensive burial in the establishment's program when the mouth of the corpse fell open, and a row of false teeth dropped out.

"That's not father," said the young man, and he hurried away.

"The undertaker had been putting the corpse into a mahogany coffin with gold trimmings, but now he put it back on its stone slab again.

"Idiot!" he said to it. 'If you'd kept your mouth shut you'd have had an A-1 funeral.'"

Defies Intense Heat

One of the constantly occurring problems of industry is the demand for crucible which will stand the intense heat temperature required in some branches of metallurgy. The experimental station of the bureau of mines has been giving this matter some attention. As a result crucible for holding molten mixtures of iron sulphates and oxides for 45 minutes at a temperature of 1,500 degrees centigrade without appreciable seepage have recently been developed.

Auto Tires in Color

The craze for color has taken the form of a demand for automobile tires to match the car. In Great Britain and on the continent automobile manufacturers are offering vehicles on which the tires match the body of the car perfectly. The claim is made that the tires thus treated with the special material designed for the purpose are preserved and therefore last much longer, but the principal object is the harmonious color effect.

Synthetic Bee Stings Out

Perfection of synthetic bee stings has been announced by the medical laboratory of Vienna, Austria. Professors of the Polytechnic hospital made chemical analysis of bee venom and claim to have succeeded in duplicating and improving it. The stinging chemical is said to cure rheumatism.

His Difficulty

Bill was not strong for arithmetic. One day his mother saw his arithmetic paper with a very low grade on it. She asked him what was wrong.

"We are studying dismal points now and I never get the point in the right place," said Bill.

His Old Style

"How's your football star at office work?"

"He wants to take the day in the last three minutes of play."

Relax at the Office

Home life has speeded up to such an extent that it is a relief to get down to the office where you can relax.—T.Jfe.

You Can't Train An Athlete On Nothing But Climate!

EDITOR'S NOTE

The University of Southern California's victory at Cambridge this spring, (its third in ten years in this historic annual meeting of college athletes), was not only a decisive triumph for the men competing but also a practical demonstration of the soundness of their training methods. We have asked Mr. Cromwell to tell us something about what he feeds his men, how he kept them fit during the long trek across the country, and what he considers the most important factors in keeping in trim, not only for competitive sports, but also for every day life.

By Dean B. Cromwell

(Track coach of the University of Southern California—winners of the 54th annual I. C. A. A. A. meet at Cambridge, Mass.)

It is quite understandable that track enthusiasts, in reviewing the fact that nine of the last ten I.C.A.A.A.A. meets have been won by teams from the Pacific Coast, draw the conclusion that climate must be the complete answer to the question, "How do they do it?" There is no question that athletes in Southern California do have greater opportunity to train in the open, but in my opinion, at least as far as my own men are concerned, it's more what they eat that gives them the drive and stamina to win meets.

It has been my experience that the greatest handicap an athlete has to overcome in building up his body is to take care of the "ashes," as I call the residue. And with this in view, I always have emphasized the need for roughage to provide bulk in the diet. This is gained through eating fibrous or leafy vegetables and plenty of those cereals which have the necessary cellulose de-

signed to give a "vegetable" effect. One of the things of which I am proudest is the fact that I have developed in my men a wholesome attitude toward this need for proper elimination of the "ashes" through including quantities of bulky foods in their diet. They wade into a meal of vegetables, salads or cereals with a zest that shows their appetites are in complete accord with these sound views on diet. They eat these foods; they like them; and all the rest of their lives, long after they have left college, they will continue to employ this natural means of keeping fit.

For breakfast, I feed my men fruits and cereals that have the

bulky qualities necessary to achieve the desired "vegetable effect." Among such cereals, one which I find particularly palatable and effective is whole rice. This delicious breakfast dish offers its cellulose bulk in an unusually smooth form.

For lunch, I see that the men eat salad—and by salad, I mean SALAD—not one of those dainty little affairs one finds at the Ritz, but big heaping plates of leafy and fibrous

vegetables. Here again, you see, I keep in mind the need for ample cellulose to help get rid of the "ashes."

Dinner includes meat—and more vegetables. You will notice that roughage, in the form of cellulose derived from one type of food or another, thus has been included in every meal. My experience in

bringing twenty men East for the meet at Cambridge this Spring strikingly illustrates what such careful dietary habits will do. Here were twenty men, keyed up for the big track meet of the year, yet forced to remain idle for a whole week during their monotonous trip across the country. Not one man, however, with the single exception of Frank Wykoff, varied a pound from his normal weight. And Wykoff I was deliberately allowing to put on a bit of weight as he burns up three to four pounds in a single afternoon's competition in the 100-yard dash.

Such eating habits are as worth cultivating by the average office worker as they are by an athlete in active training. We all feel better, have more pep, and are capable of better work when we are not burdened with poisonous "ashes" which diets deficient in cellulose are unable to remove. Try including more fibrous and leafy vegetable foods in your daily diet. Eat more food which can supply this vitally necessary "vegetable effect," and you will not wonder at the consistency of Southern California's athletes. Climate is great stuff—but it needs a little sensible help.

ROAD CENSUS SHOWS A SLIGHT INCREASE

2,744 Foreign Cars are Recorded Passing on County Roads in Two Day Period

Figures have been compiled by the highway department of the county road census taken on July 12 and 13. The average number of cars on the roads each day during the two day period this year was 11,603 or an average of 422 more cars each day than was recorded last year. This is an increase of 3.78 per cent. A total of 5,492 foreign cars (from states other than Minnesota) were recorded in the two day period.

Twenty-three locations were selected for the recording of passing cars. We are explaining these different locations as presented in the table so that it may be easier for the readers to visualize the locations.

S. R. No. 1, end of pavement means at the end of the Thirtieth street paving at the junction of White Line road No. 15 and State Aid Road No. 1.

S. R. No. 1-W. L. No. 15 is six miles out on Thirteenth street at Wied's corner.

S. R. No. 2-S. R. No. 1 is nine and a half miles out on Thirteenth street.

S. R. No. 2-W. L. No. 2 is seven miles east of the intersection of State Road No. 1 and State Road No. 2 or Gorton's corner.

S. R. No. 2-W. L. No. 3 is at Pine Center.

EAGLES TO PICNIC AT BIRCHDALE

Annual Picnic is Scheduled for Sunday, August 3; Name Entertainment Committee

PROGRAM OF SPORTS

There Will be Dancing in the Afternoon and Evening to Music of Mitz's Band

Braierd Eagles, their families and friends, will hold their ninth annual picnic on Sunday, August 3 at Birchdale on North Long Lake, seven miles west of Brainerd on State Road No. 19. There will be dancing both afternoon and evening with music furnished by Mitz's band.

The entertainment committee will be composed of: George W. Lucas, Ole Warlof, Harry Peterson, Thomas J. Crowley, H. D. Anderson and Sig Sheffo. All Eagles having cars are asked to assist in getting members to the picnic grounds and those not having transportation are asked to report to C. H. Lawson or Henry Kraus, secretary.

Members are also asked to bring lunch boxes and cups. The lodge will bring coffee, cream and sugar.

There will be an afternoon program of sports and one of the features will be a bucking barrel contest. This event will be open to any contestant all day long and \$1 a minute will be paid to anyone standing on the barrel without assistance.

Other events on the afternoon program include: A running race of 50 yards for boys between the ages of 12 and 16 years with a first prize of \$1.00 and a second prize of 50c.

A running race of 50 yards for boys under 12 years of age with a first prize of \$1.00 and a second prize of 50c.

A running race of 50 yards for girls between the ages of 12 and 16 with a first prize of \$1.00 and a second prize of 50c.

A shoe race for boys only with a prize of \$1.00 for the winner.

A fat man's race (200 pounds or over) for 75 yards with first prize of a box of cigars and a second prize of \$1.00.

A tug of war, the married men vs. the singles, ten men on each side, with a prize of a box of cigars to the winners.

A horseshoe contest with a first prize of a box of cigars and a second prize of a box of candy.

A swimming race for girls between the ages of 12 and 16 years with a first prize of \$1.00.

A swimming race for boys between the ages of 12 and 16 years with a first prize of \$1.00.

PICNIC PLANNED

Crow Wing County Historical Society to Hold Community Affair Near Pequot

The Crow Wing County Historical society are planning to hold a community picnic for members and friends in the near future. The tour at the time is expected to take in the site of where a meteor fell near Pequot. The exact location for the picnic grounds has not been selected.

LADIES BAND PLAYS AT SHORE ACRES

Fulfills Engagement at Popular Mille Lacs Resort as Attraction of the Day

The Brainerd Ladies Band, under direction of Mrs. Winnifred Cronk Ziebell, fulfilled a pleasant engagement at Shore Acres, the popular Mille Lacs lake resort near Onamia, yesterday afternoon.

The trip was made by motor and the ladies enjoyed a picnic lunch at the resort. Several concerts were played between 1 and 5 P. M.

The band was enthusiastically received and its music and appearance brought forth the plaudits of the large assemblage.

Shore Acres is attracting many this year and the proprietor announced that he has between 3,000 and 6,000 persons at the playgrounds every Sunday. He has a special attraction on each Sunday, the local band being the entertainment furnished yesterday.

The band's fall class is now open, and preparations are being made to receive 20 or 25 new members to add to the band's present membership of 28 ladies.

The band is a civic organization and every lady in Brainerd is eligible to belong.

PEQUOT MAN SAVED FROM DEATH

HE AND COMPANION DRAGGED FROM BURNING CAR NEAR MINNEAPOLIS

Minneapolis, Minn., July 21.—(AP)—Saved from their blazing automobile last night, Miss Helen Lyons, 17, Minneapolis, and Louis Aubele, Pequot, nursed only minor bruises, today. The pair credited the driver of their car, W. F. Dietz, for saving them from almost certain death by fire. Both were unconscious when Dietz dragged them from the wrecked car. The accident occurred between Anoka and Minneapolis.

HIT AT SIXTH AND LAUREL

Mrs. Charles Carpenter is Victim of Hit-and-Run Driver Downtown This Morning

Mrs. Charles Carpenter, who is staying at the National hotel here, was hit by a motorist at Sixth and Laurel streets at 10 o'clock this morning. Mrs. Carpenter, who has no permanent address and is working here with her husband for a collection agency, was not hurt but suffered some shock.

As Mrs. Carpenter was crossing Laurel street going south on Sixth street she noted that the stop-and-go sign gave her the right of way. As she started to cross she noticed a car approaching from the west. A moment later the car struck her and she fell on its fender. She was unhurt, but suffering from shock when she reported the accident a few minutes later at police headquarters.

The motorist who struck her did not stop but Mrs. Carpenter got the license number, Minn. 2644, and reported it. The car was a small black roadster and was going east on Laurel street when last seen. Police here are on the lookout for the car.

Kipling Won Fame Early

Rudyard Kipling composed his first juvenile work at the age of thirteen. At twenty-six he was acclaimed a genius by the public, and the writer of more best sellers than any other author of the time.

Herman A. Blanck Rites Tomorrow Afternoon

Funeral rites will be held tomorrow at 2 o'clock from the residence, 903 South Broadway, for the late Herman A. Blanck, and from the Zion Evangelical Lutheran church at 2:15 P. M. Rev. F. C. Rathert will officiate. Mr. Blanck died at his home early Saturday. He was found dead in bed by his wife at about 8:30 A. M. when she tried to awaken him. A stroke was given as the cause of death.

He had attained the age of 71 years, eight months and 23 days.

Mr. Blanck was born in Prussia, Germany, September 25, 1858. He was married to Odilie Krueger in 1880 and they came to the United States in 1883 settling in Brainerd.

They were 11 children born to this union, three dying in infancy. Those surviving are Frank, Martha Durham, Herman, Edward, Ottilie Ledaux, Edith Larson, Esther Sauvageau, Reinhardt and 13 grand children.

Mr. Blanck has been a resident of Brainerd for many years.

DAILY VACATION BIBLE SCHOOL

Under Auspices of the First Baptist Church, Opens This Morning at Tabernacle

The Daily Vacation Bible School, under the auspices of the First Baptist church, commenced this morning at the tabernacle, corner South Sixth and Oak Streets. These will be held daily from 8:30 to 11 A. M.

A special invitation is extended to all children to attend, whether of the Baptist church or some other church, as there is no other vacation Bible school being conducted at the present time.

The school is under the direction of Mrs. Nelson of Park Grove. Among the teachers are Miss Hope Thabes, Miss Leata Wohlart, Miss Milly Germaine, Miss Sara Lewis, Miss Ruby Osborne and Mrs. Kent Angel.

ROAD CENSUS SHOWS A SLIGHT INCREASE

2,744 Foreign Cars Are Recorded Passing on County Roads in Two Day Period

Figures have been compiled by the highway department of the county road census taken on July 12 and 13. The average number of cars on the roads each day during the two day period this year was 11,603 or an average of 422 more cars each day than was recorded last year. This is an increase of 3.78 per cent. A total of 5,492 foreign cars (from states other than Minnesota) were recorded in the two day period.

Twenty-three locations were selected for the recording of passing cars. We are explaining these different locations as presented in the table so that it may be easier for the readers to visualize the locations.

S. R. No. 1, end of pavement means at the end of the Thirtieth street paving at the junction of White Line road No. 15 and State Aid Road No. 1.

S. R. No. 1-W. L. No. 15 is six miles out on Thirtieth street at Wied's corner.

S. R. No. 2-S. R. No. 1 is nine and a half miles out on Thirtieth street.

S. R. No. 2-W. L. No. 2 is seven miles east of the intersection of State Road No. 1 and State Road No. 2 or Gorton's corner.

S. R. No. 2-W. L. No. 3 is at Pine Center.

EAGLES TO PICNIC AT BIRCHDALE

Annual Picnic is Scheduled for Sunday, August 3; Name Entertainment Committee

PROGRAM OF SPORTS

There Will be Dancing in the Afternoon and Evening to Music of Mitz's Band

Braierd Eagles, their families and friends, will hold their ninth annual picnic on Sunday, August 3 at Birchdale on North Long Lake, seven miles west of Brainerd on State Road No. 19. There will be dancing both afternoon and evening with music furnished by Mitz's band.

The entertainment committee will be composed of: George W. Lucas, Ole Warlof, Harry Peterson, Thomas J. Crowley, H. D. Anderson and Sig Sheffo. All Eagles having cars are asked to assist in getting members to the picnic grounds and those not having transportation are asked to report to C. H. Lawson or Henry Krause, secretary.

Members are also asked to bring lunch boxes and cups. The lodge will bring coffee, cream and sugar. There will be an afternoon program of sports and one of the features will be a bucking barrel contest. This event will be open to any contestant all day long and \$1 a minute will be paid to anyone standing on the barrel without assistance.

Other events on the afternoon program include: A running race of 50 yards for boys between the ages of 12 and 16 years with a first prize of \$1.00 and a second prize of 50c.

A running race of 50 yards for boys under 12 years of age with a first prize of \$1.00 and a second prize of 50c.

A running race of 50 yards for girls between the ages of 12 and 16 with a first prize of \$1.00 and a second prize of 50c.

A running race of 50 yards for girls under 12 years of age with a first prize of \$1.00 and a second prize of 50c.

A shoe race for boys only with a prize of \$1.00 for the winner.

A fat man's race (200 pounds or over) for 75 yards with first prize of a box of cigars and a second prize of \$1.00.

A tug of war, the married men vs. the singles, ten men on each side, with a prize of a box of cigars to the winners.

A horseshoe contest with a first prize of a box of cigars and a second prize of a box of candy.

A swimming race for girls between the ages of 12 and 16 years with a first prize of \$1.00.

A swimming race for boys between the ages of 12 and 16 years with a first prize of \$1.00.

PICNIC PLANNED

Crow Wing County Historical Society to Hold Community Affair Near Pequot

The Crow Wing County Historical society are planning to hold a community picnic for members and friends in the near future. The tour at the time is expected to take in the site of where a meteor fell near Pequot. The exact location for the picnic grounds has not been selected.

LADIES BAND PLAYS AT SHORE ACRES

Fulfills Engagement at Popular Mille Lacs Resort as Attraction of the Day

The Brainerd Ladies Band, under direction of Mrs. Winnifred Cronk Ziebell, fulfilled a pleasant engagement at Shore Acres, the popular Mille Lacs lake resort near Onamia, yesterday afternoon.

The trip was made by motor and the ladies enjoyed a picnic lunch at the resort. Several concerts were played between 1 and 5 P. M.

The band was enthusiastically received and its music and appearance brought forth the plaudits of the large assemblage.

Shore Acres is attracting many this year and the proprietor announced that he has between 3,000 and 6,000 persons at the playgrounds every Sunday. He has a special attraction on each Sunday, the local band being the entertainment furnished yesterday.

The band's fall class is now open, and preparations are being made to receive 20 or 25 new members to add to the band's present membership of 28 ladies.

The band is a civic organization and every lady in Brainerd is eligible to belong.

Standings in Girl Contest Sponsored By Publix-Dispatch

PEQUOT MAN SAVED FROM DEATH

HE AND COMPANION DRAGGED FROM BURNING CAR NEAR MINNEAPOLIS

Minneapolis, Minn., July 21.—(UP)—Saved from their blazing automobile last night, Miss Helen Lyons, 17, Minneapolis, and Louis Aubele, Pequot, nursed only minor bruises, today. The pair credited the driver of their car, W. F. Dietz, for saving them from almost certain death by fire. Both were unconscious when Dietz dragged them from the wrecked car. The accident occurred between Anoka and Minneapolis.

HIT AT SIXTH AND LAUREL

Mrs. Charles Carpenter is Victim of Hit-and-Run Driver Downtown This Morning

Mrs. Charles Carpenter, who is staying at the National hotel here, was hit by a motorist at Sixth and Laurel streets at 10 o'clock this morning. Mrs. Carpenter, who has no permanent address and is working here with her husband for a collection agency, was not hurt but suffered some shock.

As Mrs. Carpenter was crossing Laurel street going south on Sixth street she noted that the stop-and-go sign gave her the right of way. As she started to cross she noticed a car approaching from the west. A moment later the car struck her and she fell on its fender. She was unhurt, but suffering from shock when she reported the accident a few minutes later at police headquarters.

The motorist who struck her did not stop but Mrs. Carpenter got the license number, Minn. 2644, and reported it. The car was a small black roadster and was going east on Laurel street when last seen. Police here are on the lookout for the car.

Kipling Won Fame Early

Rudyard Kipling composed his first juvenile work at the age of thirteen. At twenty-six he was acclaimed a genius by the public, and the writer of more best sellers than any other author of the time.

Herman A. Blanck Rites Tomorrow Afternoon

Funeral rites will be held tomorrow at 2 o'clock from the residence, 903 South Broadway, for the late Herman A. Blanck, and from the Zion Evangelical Lutheran church at 2:15 P. M. Rev. F. C. Rathert will officiate.

Mr. Blanck died at his home early Saturday. He was found dead in bed by his wife at about 8:30 A. M. when she tried to awaken him. A stroke was given as the cause of death.

He had attained the age of 71 years, eight months and 23 days.

Mr. Blanck was born in Prussia, Germany, September 25, 1858. He was married to Ottilie Kruger in 1880 and they came to the United States in 1883 settling in Brainerd.

They were 11 children born to this union, three dying in infancy. Those surviving are, Frank, Martha Durham, Herman, Edward, Ottilie Ledoux, Edith Larson, Esther Sauvageau, Reinhardt and 13 grand children.

Mr. Blanck has been a resident of Brainerd for many years.

DAILY VACATION BIBLE SCHOOL

Under Auspices of the First Baptist Church, Opens This Morning at Tabernacle

The Daily Vacation Bible School, under the auspices of the First Baptist church, commenced this morning at the tabernacle, corner South Sixth and Oak Streets. These will be held daily from 8:30 to 11 A. M.

A special invitation is extended to all children to attend, whether of the Baptist church or some other church, as there is no other vacation Bible school being conducted at the present time.

The school is under the direction of Mrs. Nelson of Park Grove. Among the teachers are Miss Hope Thabes, Miss Leata Wolhart, Miss Milly Germaine, Miss Sara Lewis, Miss Ruby Osborne and Mrs. Kent Angel.

"WHERE'S EMILY?"

by CAROLYN WELLS

WHAT HAS HAPPENED SO FAR.

EMILY DUANE and her friend, Pauline Pennington, disappeared on Emily's wedding rehearsal day. Emily had gone to visit the hospital, but never arrived there. After leaving the Duane home, Pauline also vanishes. Later, Pauline's body is found in the ravine, and, close by, Emily's scarf, and six diamonds from the necklace her fiancé, Rodney Sayre, had given her. At the inquest, Jim Pennington testifies that his wife had threatened suicide, but suspicion points to Emily because of the findings.

NOW GO ON WITH THE STORY.

CHAPTER XXIII.

OF course the coroner's pause was not so long as the celestial one, and Winston returned to the fray, if fray it could be called, by saying:

"At this point it seems necessary to inquire of her family and friends at what hour Miss Duane left her home yesterday afternoon."

Again Lamb was spokesman. As Rodney Sayre's best man, it was his part to do anything and everything in his power to save old Rod any trouble or bother. And it was too much to expect Aunt Judy or the girls to answer. Though, he felt sure, Nell was dying to get into the conversation.

But Nell, like the rest, was pretty well subdued by the terror of the ideas hinted at by the finding of Emily's diamonds and fur with the dead body of Pauline Pennington.

It could all be duly explained, of course, but it hadn't been as yet.

"We've gone over that question pretty thoroughly, Mr. Winston," Lamb told him, "and none of us can place the hour nearer than about five. You know yourself at a pleasant party one doesn't watch the clock in case of being called as a witness. Mr. Sayre was the last one to speak to her in the house, so far as we know. But the butler saw her leave by a side entrance and he said it was about five. He's more likely to know than the guests."

"Yes, of course," Winston nodded. "Where did she go?"

"She started for the hospital, but we are told she never arrived there. We fear foul play, perhaps abduction for ransom, or robbery of her jewels. That piece you have is but a small portion of a long rope of diamonds given her by her fiancé as a wedding present."

"And she was wearing it when she left the house?"

"We think so."

"Don't you know so?"

"How can we? She might have chosen to leave it behind at the last minute. It might have been stolen by a sneak thief—oh, I'm not in the witness box, am I?"

Lamb's enthusiasm had run away with him, and he ceased speaking, a little abruptly.

"No, Mr. Lamb, and the two cases must be kept separate, unless they impinge on one another."

There was more testimony from the doctor, and the hospital authorities, and then Winston put the case in the hands of the jury.

Solemnly they filed out of the room, and bizarre inquest though it might be, hearts were beating with very real and deep anxiety as to the verdict.

The Knollwood group sat properly quiet and conventionally calm, but Betty felt limp and weak, and Nell wanted to scream.

Aunt Judy had on her best drum-major air, and that was a very fine one indeed.

The men came back, as fine in all respects as they had gone forth, though Pete looked at them for battle scars.

Their verdict was:

"Death by misadventure. Whether alone at the time, or in the company of another person, there is not sufficient evidence or data to determine."

And the citizens of Hilldale filed out in an orderly manner and went redly home to talk over their first inquest.

"Who's going to tell Rod about the piece of the diamond chain?" asked Pete Gibby as the Knoll-

wood group walked slowly homeward.

Lamb quailed inwardly, but was about to say he would of course do that, when Aunt Judy spoke up. "I shall. As things stand now, there is a shadow or the danger of a shadow on our Emily, and her natural protectors are myself and Rodney. I put myself first, for she is mine until I give her over to him. But of course, he and I share the responsibilities of any decisions. You will all stand by I know, but we must take the helm. I feel helpless, I can take no initiative, for I know of none to take."

"I've two theories," he said, promptly. "One, that she was abducted and is being held for ransom. That's the most plausible. You know they do abduct rich girls as well as children."

"Not often. Well, what else?"

"That she is teasing me. I know it seems incredible, but Emily is a wilful piece, and it may be that she wants to give me a final test as to my patience in putting up with her teasing. I should not be surprised to see her walk in this minute and throw her arms around me."

And then, very gently and straightforwardly, Aunt Judy told

him of what had been brought out at the inquest.

Sayre listened, his face growing white and set, and his eyes filled with an amazement beyond all words.

When a faithful recital of the morning's session had been concluded, he sat silent a moment, and then said:

"You're right, Aunt Judy, we are up against it."

"You see where the police are trending?"

"Of course I do. They'll say Emily pushed Polly over the rail, that Polly caught at Emily's fur and necklace as she went over, and that after the deed, Emily ran away."

"That's exactly what they will say."

"But Emily didn't do that?"

"Of course not," Aunt Judy's voice was firm and even, but her eyelids fluttered a little, sure sign with her of uncertainty.

Sayre caught it, and said quietly, "Tell me what you think."

"I will. This is no time for concealment of any sort. I know Emily had no really evil thought in her heart, but I know, too, how she can fly off the handle and do the most outrageous things in a moment of angry passion."

"Push Pauline over?"

To Be Continued Tomorrow.

"They'll say Emily pushed Polly over the rail," said Aunt Judy.

I can only be ready to face any situation that may arise."

Aunt Judy stopped talking and they were all silent.

Never had they seen this side of her before. Always placidly content, and carelessly gay, she had looked after household matters in her efficient way but no one knew how she could be depended upon for generalship.

Yet, as she had said, there was no initiative to be taken, only to await developments.

Lamb was escorting her. Nell and Betty were walking behind with Pete.

"Good for you, Aunt Judy," Lamb said. "I know you'll be a tower of strength for old Rodney, and, too, he'll be your right-hand man. Call on me for anything in the world I can do, and, indeed, on all of us. Shall we stay over the week-end?"

"Surely. You know Emily may appear at any minute, and then the wedding will pick up and go on. Yes, irrespective of poor Polly's death. She was a dear friend, but not a relative, so we will go right on."

Aunt Judy spoke as though Emily might come home, laughing, at any time now, and whether this attitude was real or assumed none could say.

But when they reached Knoll-

wood, they found the door open.

"Who's there?" called a voice from within.

"It's me, Aunt Judy," called Lamb. "We're home."

"Come in," called the voice. "The door is open."

"Where's Emily?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's Pauline?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's Rodney?" called Aunt Judy.

"In his room," called the voice. "He's all right."

"Where's the girl who was with Emily?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Pauline?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Rodney?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Emily and Pauline?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Rodney and Pauline?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Emily, Pauline, and Rodney?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily and Pauline?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily, Pauline, and Rodney?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily, Pauline, and Rodney?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily, Pauline, and Rodney?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily, Pauline, and Rodney?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily, Pauline, and Rodney?" called Aunt Judy.

"In her room," called the voice. "She's all right."

"Where's the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily, Pauline, Rodney, and the girl who was with Emily, Pauline, and Rodney?" called Aunt Judy.

"In her room," called the voice. "She's all right."

DAIRY

COW CANNOT EAT ENOUGH PASTURE

Home Grown Feeds Will Fill Out Grain Ration.

(By J. C. NISBET, Extension Dairyman, Kansas State Agricultural College.)

Knowing the needs of dairy cows and what they eat when on pasture will add to the dollars from the milk bucket.

Green, succulent pasture is naturally high in protein but is low in total digestible nutrients. A cow milking over 20 pounds of milk a day cannot eat enough pasture to provide the necessary carbohydrates to maintain that production. Grain feeding of this cow on pasture is absolutely necessary. Her grain ration need not be high in protein—home-grown feeds will balance the pasture. A mixture of 400 pounds of corn and 200 pounds of oats should be fed at the rate of one pound of grain to every four and one-half pounds of milk from the Ayrshire Jersey and Guernsey, and one pound of grain to five pounds of milk from the Holstein.

Dry pasture contains about one-third as much protein as the green succulent grass. An understanding of this fact makes the successful dairyman begin to add a high protein feed to his grain ration as soon as pasture starts to dry. The grain mix then is composed of 400 pounds of corn, 200 pounds of oats, and 100 pounds of cottonseed meal. The rate of feeding is changed to one pound of grain daily to every pound of fat produced a week.

Abundance of pasture is very important to the dairy cow. Being the hardest worked animal on the farm, she does not need a bare gymnasium for exercise. Every time she produces five gallons of milk she has used up more energy than a team of 1,500-pound horses plowing through an eight-hour day.

Cooling Milk Supply Is Not Difficult Problem

The summer spells are accompanied by the usual loss to milk and cream shippers.

Much milk has been returned as unfit for use, due to souring, and the aggregate loss in only a few days would run into thousands of dollars in a single county. And in every such hot spell there are many farmers who never lose a can of milk and many others who always do. Why the difference? It is all summed up in two things—cleanliness and cold. The first is most important where all dairy utensils are concerned. Improper washing and scalding will do far more to spoil milk than dirty cows or dirty stables on any farm. A cooling tank at the well, through which the water intended for the stock flows, is effective and in common use. Ice is desirable, but many farmers who never have had a can of milk returned are also without ice. A survey of their methods would show real cleanliness in handling the milk and cooling as well as well water will allow.

Controlling Abortion Is Not Difficult Task

Contagious abortion is not difficult to control, Dr. Robert Graham, Purdue university, stated recently at the meeting of the Indiana Dairyman's association at Purdue. Before attempting to carry out eradication plans the dairymen should learn how the disease is spread.

Correct understanding of the nature of the disease, the importance of the abortion test, segregation of the infected animals and clean stables and clean yards are necessary in control of the disease. If the manager or owner of the herd is not aware of the value of these sanitary measures it is next to impossible for him to carry out a good program.

The local veterinarian assisted by the laboratory is able to give the dairymen assistance that will get results. Veterinarians know that some cows that calve normally may be spreaders of the disease.

Sunflower Feed

Cows keep up their milk flow easier when fed early cut sunflowers in the silo, and they lose less in weight when fed silage from the early cutting than when eating silage from the later harvests. The freshly cut early plants will be very watery, and sap will run out of the silo, unless the plants are allowed to wilt for a short time in the field. They may be cut with a corn binder but hand cutting is probably better.

Treating for Bloat

Formalin is recognized as the best treatment for bloat. This may be secured from any drug store, and should be the 40 per cent solution. One tablespoonful should be mixed with one quart of water and given to the animal, which will give quick relief. In addition to the use of formalin, the old time precautions should be observed to prevent bloat from occurring. Give the cattle a good fill of dry feed before turning on to green alfalfa.

A PEST? YES, BUT 'COMMON SCOLD'? NO! MAN CONTENTS

Cursed His Neighbors and Roared All Over the Place, "But What of It?"

Pittsburgh.—Charles Rizzo admits he may have disturbed the peace of Dufield street; he further admits he may have been contentious, obstreperous, pugnacious, and pestiferous; he may have been unseemly in his conduct toward his neighbors, have injured their feelings by hard words and threats.

But Charles Rizzo is ready to fight to the end to prove he is not a "common scold"; he intends to go to the United States Supreme court, if necessary, to set aside the verdict given in Criminal court by a jury of eight men and four women.

The affair goes back to last winter. The good people of Dufield street claim that every day and every night during the winter, Rizzo came home shouting and cursing.

The neighbors caused to be invoked against Rizzo the old colonial law, adopted in and still standing on the statutes of the commonwealth. And they hailed Rizzo into court to answer to being a "common scold."

A dozen neighbors testified that Rizzo would swear at them every time he saw them, day or night, and that his conduct at all times was unseemly. They testified he would stand in his yard and would curse them until they fled.

Questions by counsel failed to develop answers as to why some neighbor did not exercise the great American privilege of extirpating him.

Eventually Rizzo was convicted. But he appealed for a new trial. His lawyer, F. L. Lagorio, cites the wording of the scold statute to prove biologically that Rizzo could not be convicted under it, for the law defines a scold as "a glib woman with a too active tongue."

Furthermore, counsel pleads, should the conviction stand, the county would be put to wasteful expense, as the law provides that "any person convicted of being a common scold shall be ducked three times in an open body of water."

The learned counsel points out that neither Allegheny county nor Pennsylvania state now owns a ducking stool.

Genius Most Important

What most concerns humanity in the long run is the illumination of genius, not the mediocrity of the crowd. If the modern movement in secondary education means the de-capitalization of the eminent in the interests of the average, it will stand condemned at the bar of future history.—Sir Michael Ernest Sadler.

CITATION FOR HEARING ON PETITION FOR PROBATE OF WILL

No. 3429.

State of Minnesota, County of Crow Wing, ss., Probate Court.

In the Matter of the Estate of Marie Louise Gaboury, Decedent.

The State of Minnesota to All Whom It May Concern:

Whereas, Adolph Peter Gaboury, of the City of Brainerd, in said County and State, has deposited in this Court an instrument in writing, purporting to be the Last Will and Testament of Marie Louise Gaboury, late of the County of Crow Wing, State of Minnesota, together with his petition, praying that said instrument be allowed and admitted to probate, and that letters testamentary be granted to Adolph Peter Gaboury, which instrument and petition are on file in this Court and open to inspection;

IT IS ORDERED, That said petition be heard on the 18th day of August, 1930, at ten o'clock A. M., at the Probate Court Room, in the Court House at Brainerd, in said County and State; that you be and appear before this Court at any time and place and show cause, if any there be, why said petition should not be granted; that you file your objections, if any there be, in writing, in this Court to the allowance of said Will, said said hearing; and that this citation be served by the publication thereof according to law, and by mailed notice as required by the rules of this Court.

WITNESS, The Judge of this Court and the Seal thereof this 15th day of July, 1930.

(Probate Court Seal) L. B. KINDER, Probate Judge, Brainerd, Minnesota.

Attorneys for Petitioner.

Mello-glo Prevents Shiny Nose

MELLO-GLO Face Powder is preferred by beautiful women because it leaves no trace of pastiness, flakiness or irritation. Stays on longer—no shiny noses. Made by a new French process—prevents large pores. Spreads more smoothly—gives a youthful bloom. Very pure. Use MELLO-GLO Face Powder. It's wonderful. Johnson's Pharmacy. advt.

Pile Sufferers

You can only get quick and permanent relief by removing the cause—congestion of blood in the lower bowel and a weakening of the parts. Nothing but an internal medicine can do this—that's why cutting and salves fail. Dr. J. S. Leonhardt discovered a real internal Pile remedy. After prescribing it for 1000 patients with success in 960 cases, he named it HEM-ROID. Druggists everywhere now sell it and H. P. Dunn, Johnson's Pharmacy guarantee money-back if HEM-ROID does not end Piles in any form.

FOR RENT—2 to 4 room apartment for light housekeeping. Call 799-J. 8525-261f

FOR RENT—Sleeping room, 722 South Broadway. Call 593. 2781f

FOR RENT—5 room house, newly finished. Call 717-J. 8670-4012

FOR RENT—Furnished rooms for light housekeeping. 412 12th street Southeast. 7913-2821f

FOR RENT—Attractively furnished and unfurnished steam heated apartments with gas stoves, electric lights and full bath room equipment. Centrally located store room, office space, farms for rent and sale. Insurance. Phone 1. Gould-Gray Co. 4446-2551f

FOR RENT—One cottage at Gull Lake for July and August. E. C. Bane. 8517-261f

FOR SALE—Neat small cottage located on Gull Lake. Reasonable. Phone 84 or write Box 14. 7797-2721f

FOR SALE—Two large modern lodges at Gull Lake, large grounds, hot and cold water, bath, electric lights, all

"WHERE'S EMILY?"

by CAROLYN WELLS

WHAT HAS HAPPENED SO FAR.

EMILY DUANE and her friend, Pauline Pennington, disappear on Emily's wedding rehearsal day. Emily had gone to visit the hospital, but never arrived there. After leaving the Duane home, Pauline also vanishes. Later, Pauline's body is found in the ravine, and, close by, Emily's scarf, and six diamonds from the necklace her fiancé, Rodney Sayre, had given her. At the inquest, Jim Pennington testifies that his wife had threatened suicide, but suspicion points to Emily because of the findings.

NOW GO ON WITH THE STORY.

CHAPTER XXIII.

OF course the coroner's pause was not so long as the celestial one, and Winston returned to the fray, if fray it could be called, by saying:

"At this point it seems necessary to inquire of her family and friends at what hour Miss Duane left her home yesterday afternoon."

Again Lamb was spokesman. As Rodney Sayre's best man, it was his part to do anything and everything in his power to save old Rod any trouble or bother. And it was too much to expect Aunt Judy or the girls to answer. Though, he felt sure, Nell was dying to get into the conversation.

But Nell, like the rest, was pretty well subdued by the terror of the ideas hinted at by the finding of Emily's diamonds and fur with the dead body of Pauline Pennington.

It could all be duly explained, of course, but it hadn't been as yet.

"We've gone over that question pretty thoroughly, Mr. Winston," Lamb told him, "and none of us can place the hour nearer than about five. You know yourself at a pleasant party one doesn't watch the clock in case of being called as a witness. Mr. Sayre was the last one to speak to her in the house, so far as we know. But the butler saw her leave by a side entrance and he said it was about five. He's more likely to know than the guests."

"Yes, of course," Winston nodded. "Where did she go?"

"She started for the hospital, but we are told she never arrived there. We fear foul play, perhaps abduction for ransom, or robbery of her jewels. That piece you have is but a small portion of a long row of diamonds given her by her fiancé as a wedding present."

"And she was wearing it when she left the house?"

"We think so."

"Don't you know so?"

"How can we? She might have chosen to leave it behind at the last minute. It might have been stolen by a sneak thief—oh, I'm not in the witness box, am I?"

Lamb's enthusiasm had run away with him, and he ceased speaking a little abruptly.

"No, Mr. Lamb, and the two cases must be kept separate, unless they impinge on one another."

There was more testimony from the doctor, and the hospital authorities, and then Winston put the case in the hands of the jury.

Solemnly they filed out of the room, and bizarre inquest though it might be, hearts were beating with very real and deep anxiety as to the verdict.

The Knollwood group sat properly quiet and conventionally calm, but Betty felt limp and weak, and Nell wanted to scream.

Aunt Judy had on her best drum-major air, and that was a very fine one indeed.

"The men came back, as fine in all respects as they had gone forth, though Pete looked at them for battle scars."

Their verdict was:

"Death by misadventure. Whether alone at the time, or in the company of another person, there is not sufficient evidence or data to determine."

And the citizens of Hilldale filed out in an orderly manner and went readily home to talk over their first inquest.

"Who's going to tell Rod about the piece of the diamond chain?" asked Pete Gibb as the Knoll-

wood group walked slowly homeward.

Lamb quailed inwardly, but was about to say he would of course do that, when Aunt Judy spoke up.

"I shall. As things stand now, there is a shadow or the danger of a shadow on our Emily, and her natural protectors are myself and Rodney. I put myself first, for she is mine until I give her over to him. But of course, he and I share the responsibilities of any decisions. You will all stand by I know, but we must take the helm. I feel helpless, I can take no initiative, for I know of none to take."

"I've two theories," he said, promptly. "One, that she was abducted and is being held for ransom. That's the most plausible. You know they do abduct rich girls as well as children."

"Not often. Well, what else?"

"That she is teasing me. I know it seems incredible, but Emily is a wilful piece, and it may be that she wants to give me a final test as to my patience in putting up with her teasing. I should not be surprised to see her walk in this minute and throw her arms around me."

And then, very gently and straightforwardly, Aunt Judy told

wood and Aunt Judy summoned Rod to her in her own little sitting room, she told him the truth.

"Rodney," she said, "we are up against it, you and I. I don't want to talk this way before the others, but Emily is ours, and we must be the responsible ones. First of all, Rod, what do you really think has happened?"

"I've two theories," he said, promptly. "One, that she was abducted and is being held for ransom. That's the most plausible. You know they do abduct rich girls as well as children."

DAIRY

COW CANNOT EAT ENOUGH PASTURE

Home Grown Feeds Will Fill Out Grain Ration.

(By J. C. NISBET, Extension Dairyman, Kansas State Agricultural College.)

Knowing the needs of dairy cows and what they eat when on pasture will add to the dollars from the milk bucket.

Green, succulent pasture is naturally high in protein but is low in total digestible nutrients. A cow milking over 20 pounds of milk a day cannot eat enough pasture to provide the necessary carbohydrates to maintain that production. Grain feeding of this cow on pasture is absolutely necessary. Her grain ration need not be high in protein—home-grown feeds will balance the pasture. A mixture of 400 pounds of corn and 200 pounds of oats should be fed at the rate of one pound of grain to every four and one-half pounds of milk from the Ayrshire Jersey and Guernsey, and one pound of grain to five pounds of milk from the Holstein.

Dry pasture contains about one-third as much protein as the green succulent grass. An understanding of this fact makes the successful dairyman begin to add a high protein feed to his grain ration as soon as pasture starts to dry. The grain mix then is composed of 400 pounds of corn, 200 pounds of oats, and 100 pounds of cottonseed meal. The rate of feeding is changed to one pound of grain daily to every pound of fat produced a week.

Abundance of pasture is very important to the dairy cow. Being the hardest worked animal on the farm, she does not need a bare gymnasium for exercise. Every time she produces five gallons of milk she has used up more energy than a team of 1,500-pound horses plowing through an eight-hour day.

Cooling Milk Supply

Is Not Difficult Problem

The summer spells are accompanied by the usual loss to milk and cream shippers.

Much milk has been returned as unfit for use, due to souring, and the aggregate loss in only a few days would run into thousands of dollars in a single county. And in every such hot spell there are many farmers who never lose a can of milk and many others who always do. Why the difference? It is all summed up in two things—cleanliness and cold. The first is most important where all dairy utensils are concerned. Improper washing and scalding will do far more "spoil milk" than dirty cows or dirty stables on any farm. A cooling tank at the well, through which the water intended for the stock flows, is effective and in common use. Ice is desirable, but many farmers who never have had a can of milk returned are also without ice. A survey of their methods would show real cleanliness in handling the milk and cooling as well as well water will allow.

Controlling Abortion

Is Not Difficult Task

Contagious abortion is not difficult to control, Dr. Robert Graham, Purdue university, stated recently at the meeting of the Indiana Dairymen's association at Purdue. Before attempting to carry out eradication plans the dairymen should learn how the disease is spread.

Correct understanding of the nature of the disease, the importance of the abortion test, segregation of the infected animals and clean stables and clean yards are necessary in control of the disease. If the manager or owner of the herd is not aware of the value of these sanitary measures it is next to impossible for him to carry out a good program.

The local veterinarian assisted by the laboratory is able to give the dairymen assistance that will get results. Veterinarians know that some cows that calve normally may be spreaders of the disease.

Sunflower Feed

Cows keep up their milk flow easier when fed early cut sunflowers in the silo, and they lose less in weight when fed silage from the early cutting than when eating silage from the later harvests. The freshly cut early plants will be very watery, and sap will run out of the silo, unless the plants are allowed to wilt for a short time in the field. They may be cut with a corn binder but hand cutting is probably better.

Treating for Bloat

Formalin is recognized as the best treatment for bloat. This may be secured from any drug store, and should be the 40 per cent solution. One tablespoonful should be mixed with one quart of water and given to the animal, which will give quick relief. In addition to the use of formalin, the old time precautions should
